## Skills and Hobbies

---

I love working in workgroups and meeting new people. Public speaking is also a great passion of mine, be it giving a presentation or just giving my opinion in front of an audience. I am also an IT enthusiast and enjoy all aspects of the world of technology. Regarding sports, I am a keen skier and regularly play football. I also try to participate in 10KM running races and am a very passionate horse rider.

In addition, doing social work with people with CP (cerebral palsy) has proven exceedingly rewarding for me on many levels: AIS organises an outing one weekend per month so that people with CP can enjoy themselves, whilst their family can rest and we, the volunteers, take care of them, and at the same time discover more about ourselves.
