SCRIPTLOGIC PRODUCT ANNOUNCEMENT

PRODUCT RELEASES	ScriptLogic is happy to announce our entry into the network management space with the release of Perspective.
EFFECTIVE DATE	January 18, 2010
DESCRIPTION 	<p>Perspective is a comprehensive and affordable network management and application monitoring solution that integrates network traffic, LAN, wireless and VoIP into one comprehensive solution. Perspective solves problems with bandwidth, connectivity, network and application performance quickly and easily.</p> <p>Main product features:</p> <ul style="list-style-type: none"> ✓ Perspective is not just for Windows; perspective can monitor Windows, Mac and Linux devices. ✓ Point. Click. Done® Customers can install and configure Perspective in 15 minutes through a simple 3 step process. ✓ Monitor, alert, remediate and report on all network devices such as routers, switches, firewalls, servers, desktops, VoIP, virtual servers and machines and wireless access points. ✓ View traffic on all network devices, not just NetFlow, sFlow and J-Flow enabled devices, with Perspective's ptFlow (available in the network Flow Analyzer module). This is where Perspective really sets itself apart from the competition. ✓ Performance baselining automatically analyzes collected network data to identify expected network usage and will only send qualified alerts once irregular behavior is detected. ✓ Help Desk Authority integration takes alerts created by Perspective and creates tickets in HDA, routes tickets to the correct technician based on device type, and provides device details directly in HDA. ✓ Automated remediation provides the capability to restore services, restart applications or reboot servers when issues are detected and before they are brought to the attention of network admins or tickets are created in HDA. <p>Along with this product we are also offering sl360, a free network monitoring and management suite of tools that will appeal those administering Windows and networks alike. This is fantastic lead generation tool.</p> <p>For details on sl360 tool suite visit: http://www.scriptlogic.com/sl360/</p> <p>Customers can learn more about Perspective at http://www.scriptlogic.com/perspective</p> <div data-bbox="550 1713 1243 1824" style="text-align: center; background-color: #4a4a8a; color: white; padding: 10px; margin-top: 20px;">  Put your network into Perspective™ <small>MARKETING MATERIALS NOW AVAILABLE.</small> </div>
