

Full time Senior Developer

(AS3, front-end, new technologies)

Short description

We are looking for a Senior Developer who is familiar with new technologies and creativity.

The ideal candidate should be experienced, multi-skilled and always willing to learn new languages and technologies.

Skills

Must have

- Expert-level AS3 knowledge
- Front-end technologies (xHTML, CSS, JS/jQuery) knowledge
- An interest in design/creativity and a good eye for detail

Recommended

- Be familiar with common AS3 libraries (Papervision3D, Box2D, SWFAddress...)
- Experience creating W3C compliant, cross-browser and SEO-optimized front-end
- LAMP knowledge (Linux, Apache, MySQL, PHP)
- Experience with Version Control Systems
- Good communication skills

Nice to have

- ObjectiveC, C, C++, C#, Java, OpenGL, Processing, Unity3D or openFrameworks
- Experience with multi-touch, Arduino or any physical installations
- Experience with planning, UML language, Agile methodology and best practices

Responsibilities

The candidate should:

- Write clean, documented, reusable code
- Have a self-taught attitude and be open to learn and experiment with new technologies
- Be able to develop a project from start to finish as well as maintain and/or rebuild existing ones
- Be willing to work closely with all our departments (design, interaction, UX, Project Management and R&D...)
- Be able to meet deadlines and develop projects on time and on budget
