Temporary Traffic Control Plan

June 10 to June 30

Sheridan and Robinson Avenue construction will impact your commute in and out of the downtown area and specifically your access to parking garages. We have developed a recommended traffic control plan. This plan is designed to facilitate ingress and egress in the downtown area as efficiently as possible.

Please use our map to assist you in the traffic control plan and we thank you for your patience.

Legend:

1. A northbound lane will be added on Robinson from Main to Park. This traffic must turn right (eastbound) onto Park.
2. No left turns out of the Main Street Garage. Traffic exiting from the Main Street Garage must turn right or westbound on Main, then proceed north on Robinson to Park Avenue.
3. No left turns out of the Leadership Square Garage. Traffic exiting from the Leadership Square Garage must turn right or westbound onto Park.
4. No right turns onto Park from Harvey. Traffic exiting from the City/Devon Garages on Harvey must continue north on Harvey or turn left or westbound onto Park.
5. Traffic exiting from the Cox Center must use the Gaylord exit. No Robinson exit.
6. Through traffic on Robinson will be blocked at Sheridan.
