Projects/Internships

Prudent Solutions: The project aims to create a professional informational site (www.prudentsolutions.in) for a consulting firm. Additional features included user profile management and ability to post job requirements online. My responsibilities in this project include designing and developing the system and provide suggestions on improvement of the system.

Mosey: The project aims to be an integrated twitter and facebook client for android platform. Since in today's age we spend so much time online, it will also serve as an online diary of an individual. User can go back in time and see his/her status updates tweets, popular posts associated with the user etc. Project is under development.

FOSJAM.IN: Designed & developed a website (www.fosjam.in) to provide information about the FLOSS community event held at JECRC. My responsibilities include the design ideas of the website, database administration, flex and poster design for the event.

Renaissance '08 Website: Designed, Developed and Managed Renaissance '08, (JECRC National Techno-Cultural Festival) [website](#).

Handloom Emporium: The project aimed to create an online E-Commerce store (www.handloomemporium.com) to sell apparels online. My responsibilities included the development of backend framework, provide usability related consultation and support.

Grocery Store Management: Developed a *Grocery store management* system using C graphics.

Talks/Heckfest

- Talk on Web 2.0 & 3.0 at Renaissance '09 (JECRC Technical Festival).
- Talk on "Introduction to FLOSS (*free/libre/open source software*)" followed by heckfest on installing ubuntu at JECRC.
- Participated in Subito (Overnight software development) in Renaissance '07, '08.
- Participated in Fosjam '09 (Free and open source software jaipur annual meet).
- Participated in Teckriti(Annual technical fest at IIT-Kanpur) '08 and '09 and contributed in hackfests on DrupalTM, "hacking linux kernel", Beagle etc.

Co-Curricular Activities

- Organized Subito '09 (Overnight Software development contest) at Renaissance '09
- Contributed to Hindi documentation for various ubuntu projects
- Responsible for design department in FOSJAM '09
- Member of media league team in Renaissance '08

- Organized a workshop on free and open source technologies followed by install fest on Ubuntu.
- Actively participated in organizing blood donation camp at JECRC in 2007 & 2008
- Participated in plays, volleyball and chess at school level.
