Campaign Update

"Commitment for a Better Tomorrow"

January 18, 2010

Keeping Our Supporters Informed

Since our last email, I have been very busy traveling the district and meeting with groups to hear what the people of the Sixth District have to say. Recently, I sent out a press release calling for Congressman Wilson to change his stance on the "Healthcare" Bill being "negotiated" behind closed doors by Speaker Pelosi, President Obama and Senator Reid.

Our District needs jobs, it needs to feel secure and we need to see a brighter future for our children and our grandchildren. We do not need the yoke of government keeping us down in the name of progress. We do not need for our children to have to look elsewhere to see a brighter future.

I am working hard to become your voice in the Sixth District. A voice and a Congressional Representative that you can count on to stand up and voice your concerns, but I need your help. Your donation of \$25 will help us to reach 50 people in the district. A donation of \$100 will help us reach 210 people. Your donation of \$500 help us provide yard signs and bumper stickers for this

In This Issue

1. Keeping You Informed
2. Ohio Valley Coal Company
3. Upcoming Events
4. Jobs vs. Special Interests

Take some time to look beyond the 6th district, and help those in need:

As many of you know the situation in Haiti is dire, we as Americans have always stepped up to help those in need. I am asking you right now to do what you can and commit to making a donation by going to:

Visiting the Ohio Valley Coal Company

I recently visited the Ohio Valley Coal Company in Belmont County. Many thanks to the Murray Family and their employees for welcoming us and teaching me about how vital coal is to American energy, as well as the 6th district.

Kevin and Dave were especially informative about the Longwall Mining technique they use. This is an incredibly interesting and effective method for extracting the coal which powers 90% of the homes in the state of Ohio. I will be posting more information about my trip to the "Portal of Hope" in the next few days on my New Blog: www.blog.drallenforcongress.com

Upcoming Events

This last week has been very busy for our campaign. On Monday we met with 84 concerned voters in Marietta, many thanks to Glenn and Becky and the Marietta 9/12 group for organizing this event. Tuesday I stopped by Athens County and spoke to about 25 of the Executive Committee members present.

Next week, I will be meeting with my campaign and planning out the rest of this month and all of next month. As many of you know, the Lincoln Day Dinner season is upon us and I look forward to meeting many of you at these events throughout the district.

If you have any events you would like to see us at, let me know by emailing me at info@drallenforcongress.com

This just shows that Nancy Pelosi and Company are out of touch:

First they give the banks our money to help them out. Then they propose taxing the banks to get it back. All the while who is paying for this?

Send us your ideas and news stories

We are currently working on an updated website to bring you information faster. Send us any ideas you may have for the new site to infor@drallenforcongress.com

Also, your contribution of \$10, \$20, \$50 or \$100 will go a long way in helping us to bring back common sense leadership to Washington D.C. Please consider donation and visit our website click on the contribute on www.drallenforcongress.com.

Jobs vs. Special Interests

In November of last year, a mighty blow was dealt to Meigs County when AMP announced that they would not be continuing with the building of a coal fired power plant in their county. The Sierra Club is taking credit for shutting down the building of this facility. The reason being given by AMP is that the cost was going to be 37% more than originally believed. Since his Cap and Trade vote, Congressman Wilson has not publicly endorsed or encouraged the coal industry in our District.

An old adage from my youth was “Silence is golden”. This adage does not apply when you are supposed to be a leader and voice for over 630,000 Americans. The people of the Sixth District deserve to have their voices heard. They deserve the opportunity to confer with their leaders face to face and not just by phone. Congressman Wilson needs to stop just “phoning it in” and listen to the constituents of this district.

I would once again like to thank all of you for your continued support. Please feel free to pass this email along to your friends and family. Making the changes that are necessary in Washington D.C. is not easy and we are going to need a lot of support. Also feel free to visit our website at www.drallenforcongress.com.
