Campaign Update

"Commitment for a Better Tomorrow"

December 24, 2009

Keeping Our Supporters Informed

First off, from my family to yours, I want to wish each of you a Merry Christmas and a Happy New Year. This year has been a great experience for me. I can honestly say that I have been blessed throughout the year with being able to meet such wonderful supporters and friends.

I wanted to also share my New Years Resolution with you. I resolve to work tirelessly to bring Common Sense government back to Washington D.C. I will also do everything I can to ensure that your voice is heard in Congress, but first I am going to need your help in getting me elected to be your voice in Washington D.C.

This is going to be a hard fight and I am going to need all of your help to accomplish this goal. I have made my resolution and now I need you to make yours. If you can donate \$25, \$50, \$100 or \$250, it will go a long way in helping us to get to Washington and fight for you. www.drallenforcongress.com/donate

Celebrating Christmas and the New Year

In This Issue

1. Keeping You Informed
2. Christmas and New Year
3. Upcoming Events
4. Investing in Energy Independence

Scheming the Schemers, with our hard earned money:

A harbinger of the "Cap and Tax" scheme the Democrats in Washington are cooking up. Do we really want to let Chicago Style politics rob the American taxpayer in the name of the environment?

A real need for common sense in Washington:

Bills to provide amnesty for illegal immigrants are making their way through Committees in the most liberal congress in recent history. The cost for a LEGAL Immigrant to become a law-abiding taxpaying citizen of the United States of America, \$10,000 and

I have had the honor of attending several Christmas dinners and partys these last few weeks. I have attended christmas partys with my wife and staff in Belmont, Mahoning and Columbiana Countys. All of us had a great time and enjoyed seeing many familer faces as well as making some new friends.

While enjoying ourselves visiting with friends and family over the christmas season remember those who cannot be with us because they are serving in our military and also those who are less fortunate in our communities. Take some time to say a prayer for those and give thanks for all the blessings we have recived during the year.

Upcoming Events

With Christmas upon us the next two weeks will be spent with family and friends. While there are no events till January we have many events planned forthe year ahead.

On January 11th I will be in Marrietta, Ohio taking questions and talking to the 9/12 group there in Washington County. If you would like more information email me at info@drallenforcongress.com

January 13th I am being welcomed to visit a coal mine in Belmont County by the Murray family.

We will also be working to get my blog up and running in conjunction with the revamped www.drallenforcongress.com. Stay posted and look out for the blog coming in the new year.

As always, if there is ever an event that you would like to see us at or feel we need to be informed of, please drop us an email at info@drallenforcongress.com.

approximately 10 years. The cost for an illegal immigrant who breaks our laws to receive a clean record and become an American citizen, \$500. The fact that our representatives in Washington would play with an idea like this, outrageous.

Send us your ideas and news stories

We are currently working on an updated website to bring you information faster. Send us any ideas you may have forthe new site to infor@drallenforcongress.com .

Also, your contribution of \$10, \$20, \$50 or \$100 will go a long way in helping us to bring back common sense leadership to Washington D.C. Please consider a donation and visit our website and click on the contribute button. www.drallenforcongress.com

Recently, as I told you I visited the Sammis Power Plant. The day went really well, I saw all the inner workings of this First Energy Power Plant and this reaffirmed how important coal is to the 6th district as well as this country.

[Back to top](#)

Energy Independence

Our president was in Copenhagen this past week, pushing promises to pay out over \$100 billion in American taxpayer dollars to control alleged global warming in developing countries. This is a continuation of the Democrats' flawed domestic policies like "Cap and Trade" which will cost us and future generations of taxpayers in the 6th district considerably. Read about my plan for taking care of Americans first and achieving energy independence [here](#).

I would once again like to thank all of you for your continued support. Please feel free to pass this email along to your friends and family. Making the changes that are necessary in Washington D.C. is not easy and we are going to need a lot of support. Also feel free to visit our website at www.drallenforcongress.com.
