

What Churches Are Saying About Pioneer Clubs

The following are just a few stories from churches that have shared their positive experiences with the Pioneer Clubs program. See what other churches are discovering about Pioneer Clubs!

Only Place He Was Happy

"We had a good year with the Discovery program this year. Attendance varied from seven to 33. We had 18 who were very faithful; many of these kids came by themselves every week from the low-income apartments a few blocks away. Of those 18, only five are regular attendees at North Shore. One of these little guys (age 9) tried to commit suicide over the Christmas break. His mom told me the Discovery program was the only place he was happy. God provided a stand-in grandfather for him at Discovery, even before we knew we would need him. Watching the two of them play together before club and during game time was the highlight of the year for me."

North Shore Baptist Church, Menominee, MI

Applying Faith in Her Life

"Club is going very well. The activities are a good way to get unchurched kids and their families to learn about God. The greatest joy is seeing the kids apply what they are learning in their lives. One girl accepted God after a lesson about faith. She said that she never believed in God, but when she heard the verse about "without faith it is impossible to please God," she understood that she was missing faith. She said that she was going to believe and apply faith in her life!"

Faith Bible Church, Deltona, FL

Love for His Creator

"We are doing Discovery's "Adventures with God" this year, and one of the Bible lessons had to do with writing praise psalms to God. I really thought my older ones would just use the fill-in-the-blank form within the handbook, and my younger ones would draw pictures, but my kids went above and beyond my wildest expectations. One 6th grade boy even took his activity home to finish it! He brought it in two weeks later and sang it for us. We were all in tears at the depth of love this boy has for his Creator! This has been one of our best meetings this year!"

Grace Fellowship Church, Nashua, NH

Bonding in Families

"I am really excited about this upcoming year and all the things we are going to teach and explore. It has been amazing seeing the transformation in some moms' and daughters' lives and fathers and sons. Lots of bonding has taken place in families this year through Pioneer Clubs."

Miriam L.

Coram Deo Christian Church, Reno, NV

Seeing a Difference in Kids

"Pioneer Clubs has been the highlight of my year. The nights aren't long enough! I have 3-year-olds not wanting to eat their supper because they want to hurry to Pioneer Clubs! I've seen a difference in our older kids as they take part in Trailblazers. They are deepening in their faith, and the lessons we have done are so geared to today's youth. It's an amazing program and awesome for the kids to learn about Christ in every aspect of life!"
