

Pleased to co-present a Continuing Education event
for pharmacists:

Smoking Cessation The Pharmacist's Role

Pharmacists are uniquely positioned to help their clients stop using tobacco products. Learn how you can implement brief interventions at repeated contacts, such as refilling other medications, with clients to have a positive impact using the approaches covered. Even if you don't have space or time for the longer consultations the tools shown during this 1.5 hour CE will help you positively influence the long term health of your clients. This program has been accredited for 1.5 CEUs by the Alberta College of Pharmacists.

Speakers:

Susan Cormack, Program Coordinator, Tobacco Reduction Unit, AB Cancer Board
Kathleen Hayward, BSP, CAE, Canada Safeway

1. Wed. Dec 3, 7:00–8:30pm Alberta time (MST)

Program will be webcast please contact us for details on how you can attend online

Please RSVP to Alex at alexandra.scott@safeway.com

RSVP by Friday November 28, 2008
