

Invitation

Allergies, Asthma & Travel Vaccines - What you Need to Know... What is Your Role?

Speakers

Richard Leigh, MB ChB, Msc, FCP(Sa)
Assistant Professor,
Division of Respiratory Medicine,
University of Calgary

Andrew Pattullo, MD, FRCPC
Clinical Associate Professor,
Division of Infectious Diseases,
Rockyview Hospital,
Calgary, Alberta

Learning Objectives

Allergies & Asthma - Dr. Richard Leigh

- Discuss the impact of allergic rhinitis on patients and implications for management;
- Review current clinical information on the safety and efficacy of pharmacological treatments for the management of allergic rhinitis;
- Better understand the relationship between allergy and asthma along with the benefits of treating both.
- Explore ways to implement changes in your practice to enhance patient outcomes.

Vaccines - Dr. Andrew Pattullo

- Discuss and review common vaccines available for travel;
- Better understand the common risk and endemic areas for travel and home.
