

L1 Contemporary Dance Festival 2010

(first in 2002 and since then every year)

IN COLLABORATION WITH Development of New Art (DNA)

Budapest, 2010. may 6-10. at Bakelit M.A.C. and Gödör Klub Spicc Theatre

We have been organizing our contemporary dance festival for ninth years, providing opportunities for Hungarian and international artists to perform, often times hosting complementary forms of art. We invite you to a festival where you can see dance theatre performances selected by L1 members (Gyula Berger, Márta Ladjánszki).

We carry everything we have invented and developed so far. But this time, it will be different! We would like a more lively festival, with youth and the elderly alike, where the Hungarian and international performers and artists invited by L1 members will take the limelight.

We pay attention to each other!

PAST

The MU Theatre, being aware of the work and joint activities of the members of the **L1 Independent Dancers' Partnership**, asked our Company in 2002 to organize a 10-day dance festival for the first time, where the members can perform their works from the previous year, and can debut with a new performance in the framework of the festival.

The first time was so successful, that we continued with a tradition. Our festival was supported by the Dance Section of the Hungarian National Cultural Programme, the associated organizations and the institutions supporting the individual members, for which our company was grateful and enthusiastic.

PRESENT

It is a close link to belong to the L1, and it is our common cause to make it the next time for next year.

The biggest novelty for 2009 is not to focus on the work of L1 members, but on all those, who were our partners in Hungarian and international performances, either with the group or the individual members, whom we have already seen live, and whom we would like to introduce to the Hungarian public. There are some who are resident at L1, who partly or fully created their performance with us, and there are some whose performances and thoughts are so close to ours, that we would like to share the stage with them.

In 2010 we are in cooperation with a European Union partnership - Development of New Art (DNA) and we invited guest performers from our partner-countries like: Czech Republic, Denmark, Poland, Slovakia and Slovenia.

Present L1-members:

Berger Gyula and Zero Ballett

Ladjánszki Márta

Szabó Réka and The Symptoms company

L1-residency holders:

Naiara Mendioroz (E) - 2006
