## Education

### **Baylor University**

*M.S. Computer Science ( incomplete )*

- Completed all coursework except thesis requirement.

Waco, TX  
*Aug. 2007 - Present*

### **Baylor University**

*B.S. Computer Science*

Waco, TX  
*Aug. 2001 - May 2005*

## Work Experience

### **Baylor University Electronic Library**

*Academic and Research Computing Graduate Assistant*

- Assisted in the administration of Baylor academic computing resources, including the high performance cluster.
- Provided software development and technology expertise to research projects in various Baylor departments. For example, I built tools for gathering RFID data for an educational game in use in the Baylor Business school.

Waco, TX  
*Aug. 2007 - Aug. 2009*

### **Halliburton Energy Services**

*Associate Software Developer*

- Managed the build environment for multiple large software projects
- Developed an automated system for generating and running installation tests inside a cluster of VMWare virtual machines.

Houston, TX  
*Aug. 2006 - Jan. 2007*

### **Tri Lumber and Hardware Co. Inc.**

*Sales, Inventory, and IT*

- Assisted in researching and implementing a new point of sale and accounting system.
- Provided all office computer support and maintenance. ( I continue to provide these services on an as needed basis. )

Houston, TX  
*Jun. 2005 - Aug. 2006*

### **Baylor Information Network**

*Lead Technical Team Member*

- Developed and extended features for the Baylor Information Network website including a web-based student government election system which was in use until Fall '07.
- Supervised the work of an assistant and helped direct the overall direction of the site as part of a team of students.

Waco, TX  
*May 2004 - May 2005*
