## Why Should I Save Water

Price: ₹ 250

Size 180 x 240 mm, Hardback

New

Age group: 8+ years

Water is one of the most important substances in our life. So central it is to our existence that we take it for granted. We have used and misused our water supply over the years without caring. Today, water consumption is at an all-time high – we are consuming 70 per cent more water than what our grandparents used. People and industries have dumped waste into rivers, making our sources of water poisonous. In the past, civilizations have vanished due to lack of water availability. Are we on the same doomed path? Or can we do something before it is too late and save our precious resource - Water?

## Why Should I Save Energy

## Caring for nature: The Forests belong to us

Price: ₹ 150

Size 180 x 240 mm, Paperback

New

Age group: 10-12 years

Manjari sat under a tree, lost in her thoughtful world, enjoying the breeze past noon. But something unusual caught her attention – a sinister-looking bus was silently lumbering up the slope on the path that steered to the forest. Lately, other strange and worrying things had been happening in her village including auctioning of her favourite oak tree by the Forest Department. Alarmed, Manjari ran towards the village and to alert. What happened next was most unusual. Was Manjari able to save the oak tree? Who were the passengers in the bus? Why was the forest department hell bent on cutting the trees that kept the village safe from floods? The Forests Belong to Us tells you how women and children by most peaceful means, by hugging the trees, saved the guardians of nature. This small incident planted the seeds of the first people's movement to save trees, called the Chipko Andolan.

## Lucy and the Train: Tryst with SUSTAINABILITY

Price: ₹ 190

Size 120 x 180 mm, Paperback

New

Age group: 14+ years

Lucy and the Train is a journey of the self that leads to sustainability. Narrating the conflict within self, surroundings, and imagination, it captures the symbolism expressed by René Descartes through his words "I think therefore I am". The story takes the reader on a surreal journey of sustainability by weaving a complex yet beautiful tapestry of human mind, relationships, and environment.

## TerraGreen india's leading monthly environmental magazine

**TerraGreen** promotes the concept of **sustainable energy for all**. Launched in June 2004, this monthly flagship magazine of TERI acts as a platform for information and knowledge dissemination in the fields of **energy, environment, and sustainable development**. **TERRAVISION: a series of films on dangers, solutions and hopes**

We all have been witness to issues, such as electricity and water scarcity, global warming, deforestation, and resource crisis. However, some smart and innovative practices exercised by a few people across India have benefited the Indian society in many ways. TERI has acknowledged such initiatives and is also highlighting them through its films. These films showcase the success stories of sustainable living at all levels – homes, schools, and communities. To name some, *The Earth We See* and *The Earth We Want*, *Uttam Urja*, *Water* bring to light the benefits of community adoption and monitoring programmes in schools, renewable energy, and water harvesting techniques respectively.
