Better teamwork sought in campaign vs. illegal peddlers, litterbugs, traffic violators

BAGUIOCITY –

The city government has pushed for a better teamwork among concerned agencies here to boost its campaign against illegal peddling, littering and traffic violations at the central business district.

Mayor Braulio Yaranon through his secretary Rabindranath Quilala Thursday convened heads of the vari-

ous law enforcement agencies, concerned city offices, schools and barangays within the CBD District

We believe that the Golden Rule applies to animals, too. We don't accept the prevailing notion that "people come first" or that "people are more important than animals." Animals feel pain and suffer just as we do, and it is almost always humans making animals suffer and not the other way around. Yet in spite of how cruelly people behave towards animals – not to mention human cruelty to other humans- we are supposed to believe that humans are superior to other animals. If people want to fancy themselves as being of greater moral worth than the other creatures on this earth, we should begin behaving better than they do, and not worse. Let's start treating everyone as we would like to be treated ourselves.

Zone 10 to discuss strategies to improve coordination for a more effective implementation of laws on anti-peddling, anti-littering, anti-jaywalking and traffic management.

The agencies led by the city police, the Land Transportation Office, Traffic Management Group, market office, parks office, public order and safety division, the criminology colleges of the various universities and barangays of CBD Zone 10 agreed to improve links and networking with one another in the apprehension and in the imposition of penalties against violators of said laws.

During the meeting, it was noted that the proliferation of itinerant vendors in non-vending zones has remained unabated. It was reported that many of these vendors pay fees to enterprising individuals posing as representatives of the city government who have authority to collect said fees.

Among the strategies adopted were the revival of a city ordinance which deputizes barangay tanods to implement these laws in their areas of jurisdiction.

At the same time, barangay officials were encouraged to exercise their police powers to apprehend these law violators and to give due support to their tanods in said endeavor.

The city will also work for the designation of the barangay tanods assigned in the ten barangays of CBD Zone 10 as police auxiliary force to help policemen in the implementation of said laws. The city will work out the funding for the remuneration and for the training of said tanods.

Quilala said that for human considerations, the city will work for the setting up of alternative livelihood for the vendors possibly by designating additional vending areas to accommodate them and legalize their operation. – aileen p. refuerzo

Billboards committee reconstituted

BAGUIOCITY – Mayor Braulio Yaranon last week reconstituted a city committee that which scrutinizes applications and sets the standards for the installation of billboards, signs and advertisements in the city.

The mayor in Administrative Order No. 116 noted the need for said body in view of the increasing number of applications for installation of billboards, signs and other advertising tools in areas on public and private properties.

He said that the creation of said committee is mandated by Ordinance No. 52-2003 which provides that “no sign or advertisement permit shall be issued unless it conforms with the designated area as well as

the standards to be determined by the (said committee).

The mayor said that most of the proposed signs now pending before the city engineer’s office “may have an effect on landscape regulations” mandated in said ordinance.

“There is a further need to strengthen the environmental development controls in line with the commitment of the city government to preserve, enhance and nurture its environmental resource systems relative to its sustainable development efforts,” the mayor noted.

The committee will continue to be chaired by city engineer Leo Bernardes Jr. and zoning officer Arturo Orig.

The members are city treasurer Thelma Manaos, city building official officer Oscar Flores, general services officer Romeo Concio, acting city environment and parks management officer Josephine Chan, city accountant Antonio Tabin and representatives from the city mayor’s office, Philippine Institute of Civil Engineers Baguio chapter, United Architects (Cont. on page 3)

City coalition for clean air to fine tune workplan

Officers of the Clean Cities Baguio Coalition will finalize its work plan towards cleaner air here in a meeting this week with representatives of the Sustainable Energy Development Program (SEDP) in Pasig City.

SEDP country director Divina Chingcuanco said discussions will focus on the initial plans of five working committees established when the coalition, the first of its kind in the country, was created last February.

“The meeting will discuss further steps to be undertaken (by the city) in becoming a full-fledged member of the Clean Cities International,” Chingcuanco said in a letter to coalition oversight chair and city councilor Erdolfo Balajadia.

Balajadia will present the initial work plans of the five working committees while Lumen Balboa, SEDP communications specialist, will introduce a “Fuels for Life” project which will be launched this year.

The marketing and training committee led by Trancoville

punong barangay Albert Della is tasked to promote use of alternative fuel such as biodiesel by public and private transport owners.

Jonie Itliong, president of the Federation of Jeepney Operators and Drivers in Baguio-Benguet-La Union) and coalition working chair, said several jeepney associations have been lacking their diesel fuel with coconut methyl ester (CME) as their contribution to the campaign.

The technical committee headed by Engr. Leo Rimpillo vowed to produce data and to push for the adoption of an ordinance for the reduction of air pollution through use of alternative fuel.

The monitoring committee under Eugene Yocogan has started conducting a survey of the extent of coco-diesel use by transport vehicles. The infrastructure committee headed by Engr. Rolando Reyes is mandated to work on the increase of fuel stations selling biodiesel.

City sets water summit on

Several plans that would guide the city in finally implementing an integrated approach to solving its lingering water woes will be discussed during the First Baguio Water Summit set on August 18 at the Pines View Hotel.

Mayor Braulio Yaranon has invited some 200 sector representatives to the day-long forum where three documents which evolved out of a series of consultations since September last year will be presented.

The documents – a draft water code for Baguio, a medium-term water agenda and investment plan and an institutional mechanism for integrated water resources governance and management – were prepared with support from ICLEI-Local Governments for Sustainability, an international organization of local governments.

Councilor Erdolfo Balajadia, chair of the committee on environment of the local legislature, said he will introduce the water code for adoption by the

city council after the summit.

Balajadia, together with members of a technical working group, finalized the draft during a meeting with executive director Pamela Gallares-Oppus of the ICLEI-Southeast Asia Secretariat last month at the Manila Observatory.

Oppus said participants in the consultations adopted an eight-point water action agenda based on the city's water situationer that emerged out of the earlier consultations.

The agenda includes access to safe water for the remaining 25 percent still not connected to the main pipeline, reduction of non-revenue water from 38-45 percent to 20-30 percent, 20 percent increase in forest cover in all watershed areas, and reduction of waste along the Balili River that flows into Benguet Province.

Aside from the adoption of a local water code, the program dubbed SWIM (Sustainable Water Integrated Management) has set six medium-term goals until 2008.

These are equitable access to safe water, reduced negative impact on groundwater resources, improved water basins, reduced vulnerability to floods and other water-related disasters, optimized resources and responsible plans and programs, and a functional local water coordinating and governance mechanism.

To achieve these, the technical working group has suggested the establishment of a local water governance board to be headed by the mayor.

Representatives of the adjoining towns of La Trinidad, Itogon, Sablan and Tuba which, together with the city, form the BLIST area, are expected to join the upcoming forum.

The invited delegates are advised to confirm their attendance on or before Aug. 15 with John Retuya or Detchie Enkiwe of the secretariat at the city planning office through phone numbers 442-8925 and 442-6607. – *Ramon Dacawi.*

Reyes has also been tapped for the ongoing crackdown against vehicles emitting excessive smoke under “Bantay Kalinisan” which was launched last Monday.

Meanwhile, mayor Braulio Yaranon is set to endorse for approval by the city council of a joint un-

dertaking with the Energy and Clean Air Program (ECAP) to strengthen the campaign for cleaner air.

Representatives of ECAP, which is funded by the United States Agency for International Development, presented the proposal during a meet-

ing with the mayor the other Monday.

He presenters said the agreement would strengthen compliance by vehicle owners with the exhaust emission standards under the Clean Air Act and improve the city's capability towards air quality management. – *Ramon Dacawi.*

Treasurer's extension offices proposed

BAGUIO CITY- The city council last week approved on first reading and referred to the appropriate committee the proposal of Councilor Leandro Yangot establishing twenty (20) extension offices of the City Treasurer's Office (CTO) to assist in the collection of taxes in the barangays.

As stated in the proposed ordinance, the extension offices shall extend the city government's services to the public in the barangay level while making use of “state-of-the-art and user-friendly technology,” a computerized tax scheme linked to the city hall through a local area network (LAN).

This would mean, Councilor Yangot, Jr., said that, “residents and taxpayers can do business electronically with city hall in their respective barangays during office hours.”

The move, is included in the development thrust of the city government for the provision of quality public services through modern information technology for its clients, the councilor added.

The councilor has proposed the location

of extension offices for each district, as, District I-Pacdal brgy hall, District II-Engineer's hill brgy hall, District III-Scout Barrio brgy hall, District IV-Baguio General Hospital compound brgy hall, District V-City Camp Proper brgy hall, District VI-Fairview brgy hall, District VII-Slaughterhouse cmpd Sto. Nino brgy hall, District VIII-Camdas Subdivision brgy hall, District IX-Bayan Park Village brgy hall, District X-Malcolm Square brgy office.

For Districts XI up to XX, the following barangay halls as

collection centers were proposed, Outlook Drive brgy hall, Loakan Proper brgy hall, Camp 8 brgy hall, Bakakeng Norte/Sur brgy hall, San Luis Village brgy hall, Irisan brgy hall, Trancoville brgy hall, Kagitingan brgy hall, Aurora Hill brgy hall and Imelda Village brgy hall.

The proposal with an appropriation of Five Million (5M) pesos as initial funds shall be thoroughly studied before being taken up for second reading during the next council session. – *juliegfianza*

tects of the Philippines Baguio chapter and the Dept. of Public Works and Highways district engineering office.

The committee will be specifically tasked to determine applicable areas in accordance with the provision of Ordinance 52-2003.

The body will also make appropriate

policy recommendations for approval of the city mayor which will serve as basis for the issuance of appropriate permit by the building official relative to all applications for the construction and installation of said signs in designated areas on public and private properties provided that these are in compliance with the

environmental development controls mandated under the said ordinance and subject to appeal to the city mayor.

The body was asked to convene as soon as possible to promulgate its governing internal rules of procedures in accordance with its authorized mandate. – *aileen p. refuerzo*

Government (DILG) Secretary Angelo

Reyes.

The award was given during the 14th anniversary of the Bureau of Jail Management and Penology last July 9 at the Ninoy Aquino Parks and Wildlife Center, Diliman, Quezon City.

As to official communications earlier received, the award given to J/Supt. Culang, Jr., places him among the ranks of those who gave “inestimable contributions to the cause of the Bureau and to its units which have delivered significant accomplishments for the betterment of jail service.”

In recognition of efforts of J/Supt. Culang Jr., the council committee on human rights, justice, public protection, safety peace and order, composed of Councilors Jose Molintas, Federico Mandapat, Jr., and Erdolfo Balajadia authored the commendatory resolution. It likewise stated that J/Supt. Culang, Jr. brought honor and prestige to Baguio City Jail and the city in general.

The approved resolution was presented to J/Supt Culang Jr., at the session hall during last week’s council session, which coincided with the presentation of incoming J/Supt. Miguel Agwilang Cawi.

J/Supt. Culang Jr., after one and a half-years of service at the Baguio City Jail, was promoted as Chief of Staff at the BJMP, National Capital Region.-juliegfianza

STATE FUNERALS AND POVERTY OF THE SPIRIT

BY JUAN L. MERCADO

A crisis does strange things to people. Did it entice President Gloria Macapagal Arroyo, to consider playing funeral undertaker?

“No,” the President said, debunking claims she’s “open to burial of Ferdinand Marcos at Libingan Ng Mga Bayani”..Malacanang clarified Ms Arroyo merely said: “I want to heal the wounds of Edsa I, 2 and 3.”

So, who lofted that trial balloon? Quickly, Imelda and Ilocos Norte governor Ferdinand Marcos Jr. snapped it up. We “appreciate the gesture...that my father can be buried where he rightly belongs,” Bongbong sniffed. Ano kaya ang pakay (“What’s the motive?”)

The Libingan, however, is not another memorial park. It’s a place “where none but heroes lie”, former Supreme Court justice Isagani Cruz wrote in “That Queasy Feeling”.

“Even before he assumed the presidency, Erap, advocated the burial of Marcos in Libingan” Cruz recalled. “He backtracked when people angrily protested...”

Estrada’ triggered that firestorm. He stomped on a value, shared by peoples everywhere : that heroes’ resting places remain hallowed ground.

You find similar shrines abroad : from Gettysburg and Arlington Cemeteries in the US, Singapore’s Krangji memorial to France’s Notre Dame de Lorette. Their theme resonates in the Kohima Battle memorial plaque : “When You Go Home, Tell Them And Say, / For Their Tomorrow, We Gave Our Today.”

But Marcos stripped Filipinos of their tomorrows through dictatorship and kleptocracy. His history is the intractable barrier to a Libingan burial.

“A PUBLIC OFFICE IS A PUBLIC TRUST.”

A public service message brought to you by: L.T.O. Baguio

The Marcoses are desperate for a state funeral. It would honor their dead. They hope it’d rehabilitate the living, still shackled to a sordid past. Hence, they’ve kept the strongman’s corpse in deep freeze for over 18 years now — just in case.

Today, Libingan’s caretaker is a President fighting to survive politically. Will

Marcos support be swapped for a horse-drawn caisson? That'd abort "Plan B": to construct a mausoleum in Batac. .

Ms. Arroyo knows that funeral plan back-fired on Erap. So, did that trial balloon signal willingness to ignore bitter experience? If so, she'd trample on deeply-held values, as Estrada did. Look at the track record.

Fact : On 5 June 1997, the Supreme Court confirmed that "no estate taxes were filed by the Marcos spouses for 1982 to 1986". Neither did they submit income tax returns 1982 to 1985.

Marcos tax deficiency added up to P23,293,607,638 – not including Ferdinand Jr's P18.5 million debt. Reconsideration appeals were "denied with finality" on 13 January 1997.

Fact : In July 1985, University of South Wales professor Alfred McCoy, doing research at the US National Archives, "came across US Army records that discredited Ferdinand Marcos claims to heroism in World War II." The records became the basis for a New York Times series, by Seymour Hersh, that debunked Marcos war medals.

Follow-up articles, by Jeff Gerth and Joel Brinkley of the New York Times, revealed US Army records stating : Services given by Marcos and 23 others, to the 1st Cavalry Division in 1945, were "of limited military value."

The Times added : "At no time did the Army recognize that any unit, designating itself as Maharlika, ever existed as a guerrilla force in the years of Japanese occupation 1942 to 1945."

In dismissing Marcos' claims for Maharlika, the US reviewing officer, Captain Elbert Curtis wrote: "The immensity of Mr Marcos claim that Maharlika served the entire Luzon was absurd."

Fact : Three years after Marcos clamped on martial law, Amnesty International issued a report that stated : "The Philippines has been transformed, from a country with a remarkable constitutional tradition, to a system where star chamber methods have been used, on so wide a scale as to literally torture evidence into existence."

In its 1981 follow up report, Amnesty stated it found "a Philippine gulag of safe houses where members of the Armed Forces ...had been responsible for acts of unusual brutality."

Real heroes — Lorenzo Tanada, Joquin Chino Roces, Jose Diokono or Benigno Aquino, among others — deserve a Libingan grave. But neither they, nor their families, demanded that honor.

They understood what the Marcoses never grasped : that integrity and nobility of spirit — not honor guards — consecrate a burial ground in truth. El sitio nada importa, Jose Rizal points out in his Ultimo Adios. Modest graves do not devalue a man's inner worth. By the same token, 24-gun salutes do not redress poverty of the spirit.

Given this country's fractiousness, any President will need to conserve that most valuable of resources : citizen's goodwill. If the President thrusts a dictator, among heroes, she'll further drain her depleted goodwill pool..

In an open letter to then-President Estrada, Victoria Mansueto (an aunt now dead) wrote : "When World War II started, my younger brother was a fighter pilot. Lt. Salvador Manlunas and others fought, in obsolete P-26 planes, against modern Japanese Zeroes. He was killed in action.

"Bading never had a Swiss bank account. Nor did he own vast lands. All he has is a quiet tree-lined street in Villamor Airbase that bears his name and a Libingan grave. Now, you'd bury next to him, as a hero, someone who the Guinness Book of Records credits for massive theft".

MGAILLEGALNAPASUGALANSAHILLTOP,NAGLIPANA!

Kalampagin nga natin ng konti itong bagong hepe ng presinto siyete ng ating kapulisan, si Inspektor Edward Cutiyog!

Bos Tsip Cutiyog, marami na pong nagsulputan na mga illegal na sugalan partikular sa Hilltop at mukhang di mo yata ito napansin, eh, erya op jurisdiksyon mo ito. Bakit? Gumising ka naman at aksyonan mo!

At take note pa, na mga batang paslit ang nagsisilbing lookouts ng mga ito. Regular din na bumibisita daw ang mga pulis at mobile pero ang nakakapagtaka, wala naman silang nahuhuli, at hindi naman sila nanghuhuli, bakit kaya? Well, your guess is as good as mine, at ang di ko tang alam ay kung magkano,... Ang taya ang ibig kong sabihin.

Mga media?, Op kors naiparating sa akin na "on the take" din ang mga iyan, at ang iba kundi man nangunguna ang mga plastikman na bumabanat "kuno" sa radyo, pero kuwidaw, mga protektor, big time kotongero at bagman pala sila ng " mga illegalista!

Inspektor Cutiyog, sampolan mo nga itong mga illegal na pasugalan sa iyong nasasakupan para isipin namin na wala kayong "basbas" at pakinabang mula sa kanila!, Otherwise... Hmmn... Ano Tsip, kaya mo ba o hindi?

At ano rin sey nyo dito mga alagad ni plastikman na puros plastik at walang ginawa kundi ang magngawngaw "on the air"? Iyon pala eh meron na silang daily, weekly, at monthly? Di bale hintayin nyo, malapit na ang finals at grand final,.. Pweeh!

GOOD GOVERNANCE? CHARACTER CITY? PALAKPAKAN? Palakpakan po natin ang ating meyor at ang isang onorabel sa kanilang tapang na hindi napag-isipan kaya nagkakaroon ng kapalpakan?

Palakpakan natin si meyor dahil "strongman" siya kasinlakas ni Herkules, biro nyo nabuhat niya sarili niyang bangko (upuan)? Basahin nyo po ang kaniyang ulat sa bayan!

Cont. on page 7

Bantayan... from page 6

Palakpakan natin ang isang onorabel at marami na ang nawalan ng negosyo, trabaho, siyempre marami na rin ang nagugutom, dumami na rin ang naapektuhan dito sa adhikan niyang maging karakter city ang siyudad! Karakter? Baka nakakalimutan ng ating onorabel na walang karakter sa taong aburido at gutom!

Kaya't palakpakan po natin ang magpartner na palpak ang resulta ng kanilang mga pwe, klap! Map! Klap!

Bago ko pala makalimutan, palakpakan po natin ang ating mga sarili na malapit na pong mapraning sa pinaggagagawa ng magpartner na mas praning! Hi! Hi! Hi! Pwe ulit!

Good governance? Character city? Klap! Klap! Buwisit!

SEKRETARI TO THE MEYOR ABET QUILALA, SUMAGOT!...

Kaugnay sa inilabas kong mensahe o text ng isa nating readers sa nakaraan kong kolumn, . . .

Ayon kay Sec. Quilala, binigyan siya ng awtoridad ni D great Meyor Yaranon upang pumirma at mag-isyu ng mga notices, orders hinggil sa demolisyon sa mga iskwaters at ibang illegal na istraktura!

Amin pong ipapabasa sa inyo ang ibang nilalaman ng Administrative Order no.005 ni meyor Y bilang sagot ni sekretari Abet Quilala.

"Whereas there is a necessity of delegating to the Secretary to the Mayor the ministerial signing of documents relative to the efforts of the city government against illegal constructions and squatting activities to ease the city mayor from heavy volume of paper works;

Wherefore, I, Braulio P. Yaranon, city mayor, do hereby authorize the secretary to the mayor to sign for and in my behalf, notices of demolition, demolition orders, and such other issuances and documents prepared and reviewed by the city Legal Office, relative to matters on squatting, illegal structure, and allied activities, provided that all documents for the ministerial signing shall bear the words "by authority of the city mayor".

Issued this 12th day of January 2005 at Baguio City".

O ayon, siguro sapat na itong ipinabasa namin para sa kasagutan ni sekretari Quilala at sana'y naipaliwanag na ang isyu na gustong malaman ng isa nating texter!

PAGRAMPAAT PAGPARADANG MGA SASAKYAN SA MGA SIDEWALKS. DAPAT IPAGBAWAL... ng ating mga kinaaukulan, dahil bukod sa wala ng madaanan ang mga tao, ay nasisira pa ang mga sidewalks dulot ng pagrampa at pagparada ng mga sasakyan.

Ang tanong, meron na kaya tayong ordinansa para dito? Kung wala pa, anong g'tnagawa ng ating mga magagaling na mga onorabels at mukhang wala man lang nakaisip na maghain ng resolusyon para sa naturan?

At kung meron naman, anader batas na nabutas? Bakit hindi naipapatupad? Baka masyado silang busy? Ewan... Basta't ang alam ko kailangan na talagang ipagbawal ang mga sasakyan na rumampa at pumarada sa mga pampublikong sidewalks, period!

BIKTIMA O AKSIDENTE... Ang nangyaring pagkalunod ng isang tao sa may sabungan noong nakaraang buwan.

Nakakagulat itong ibinulong ng isa nating "ipis" na dumalo sa derbi ng mga manok noong nakaraang buwan!

Ayon sa kaniya, hindi raw totoo na aksidente ang pagkalunod ng biktima kundi ito ay talagang sinadya, kaya lamang, takot daw ang mga nakasaksi gawa ng maimpluwensiya, kilala at may pera di umano ang salarin.

Pilit kong kinumbinsi itong ating ipis na lumantad at sabihin ang totoo ngunit tayo'y nabigo, kaya't ang pakiusap ko sa mga awtoridad ay kung pwede na magkaroon ng masusing imbestigasyon upang matiyak kung talagang may "foul play" nga na nangyari!

Dapat mabigyan ng kaukulang hustisya ang biktima at huwag pabayaang na ang kasong ito ay mapabilang na naman sa mga nabulok at "unsolved"!

Ano sa palagay nyo mga dear readers, aksidente kaya ito o hindi? Itanong nyo po sa mga manok, baka sakali, huwag lang sa mga taong manhid at walang pakialam!

BARANGAY CAPTAIN FLORES NG KABAYANIHAN...

Pakitingnan nyo naman ang mga vendors na nagtitinda sa ating mga sidewalks diyan sa Upper Mabini. Wala na pong madaanan at maaaring ito rin ang sanhi kumbakit lumalala ang problemang trapiko sa iyong lugar.

Ang mga vendors bang ito ay mga lehitimo o hindi? Mukha yatang me naaamoy kaming di maganda, Pakilinis mo naman bago sumingaw ang baho, ikaw rin, baka makuryente ka!

MGAMAYAYABANG NA NAGPAKILALANG MGADOTC...

Dapat sila ang matesting at hindi ang mga sasakyan!

At sino itong si Mr. Areola at isang Mr. Charlie Ang na nagpakilalang mga kagawad ng DOW, na magtetesting daw ng mga sasakyan na may mga killer usok?

Nangyari po ang pagyayabang nitong mga accredited "kuno" ng DOTC noong Lunes, Agosto 1, 2005, sa may Harrison Rd.

Nakaengkwentro nitong 2 ang mga tauhan ng Jadewell kung saan pinagmumura umano nitong 2 ang mga huli, at dito ay rumesponde ang kanila ng superbisor ng Jadewell na nakilalang si Rudy Munar.

Hindi pa umano nakuntento sa pagmura, binunot daw ni Mr. Ang ang kaniyang baril at siyang isinuntok sa dibdib ni Mr. Munar na siyang dahilan upang siya'y maisugod at makonfine sa isang ospital.

Talaga raw naman oo, at totoo rin kaya ang balita na nang nagkaroon ng paghaharap sa presinto 7 ay si Atty. Rabanes ng City Legal Office ang kasama nina Ang? How true? Kung si Atty. Rabanes nga, hindi ba siya ay City Legal Officer Chief~ at wala kayang kinalaman ngayon dito ang ating meyor sa presensiya ni Atty. Rabanes sa siyete upang ipagtanggol itong dalawa?

At ano rin ang masasabi dito ni Atty. Alfredo Mondiguing ng DOTC? Totoo ba sir na mga tauhan ninyo ang mga ito? Pwede ba silang magdala ng kanilang mga baril samantalang inspeksiyon lang naman ng mga sasakyang nagbubuga ng maduduming usok ang operasyon?

Hindi kaya mas mabuti na itong dalawang nabanggit ang mabusising mabuti, hindi ang mga sasakyang may "killer usok" kundi itong may "killer instinct"? Abangan...

FASTRACK

SOMETHING TO THINK ABOUT

BY FREDDIE J. FARRES

In their book *Shadows of Forgotten Ancestors*, Carl Sagan and Ann Druyan tell of actual laboratory experiments in which monkeys were forced to choose between electroshocking other monkeys and doing without food themselves. Almost all of the monkeys went hungry for up to two weeks rather than shock others. "These macaques—who have never gone to Sunday school, never heard of the Ten Commandments, never squirm through a single Junior high school civics lessons -- seem courageous in their moral grounding and their resistance to evil... if the situation were reverse, and captive humans were offered the same deal by macaque scientists, would we do as well?"

FAMILY COURT OF BAGUIO CITY

IN THE MATTER OF THE ADOPTION OF MINOR JAESTINE MAE PIRECO PICAZO

SPOUSES JUAN NATHANIEL M. BALANGUE AND MARILOU ROBANCHO BALANGUE a.k.a. MARILOU DIZON BALANGUE,
Petitioners

- versus -

THE LOCAL CIVIL REGISTRAR CABA, LA UNION AND THE NATIONAL STATISTICS OFFICE, Respondents.

Special Proceedings Case No. 219-A

x-----x
ORDER

A verified petition filed by the petitioners through counsel, alleges among others that:

1. That Petitioners are formerly Filipino citizens who are now American citizens-both of legal age, and permanent residents of Lot 15 block 7, Douglas Fir Woodsgate Square, Camp 7, Baguio City. Respondent Local Civil Registrar of Caba, La Union, on the other hand, is a government official who holds office in Caba, La Union where he may be served with summons and other processes of the Honorable Court. Respondent National Statistics Office holds its Region 1 Office at San Fernando, La Union;

2. That petitioners are husband and

wife as evidenced by their marriage contract, a copy of which is attached to the petition and marked as Annex "A";

3. That Petitioner-husband has a first degree cousin, Edwin Corpus Sobredo (Edwin, for brevity), who was married to Loida Perito Picazo and who begot two (2) children, one of which is Jaestine Mae Pireco Picazo (JAESTINE, for brevity); A copy of JAESTINE's Certificate of Live Birth is attached to the petition and marked as Annex "B";

4. That Loida Perito Picazo died on March 6, 2004 in Caba, La Union, due to financial difficulties, EDWIN gave the custody of JAESTINE to the petitioners. As such, petitioners have been providing for all her needs, including love and affection. Petitioners have enrolled JAESTINE at the Metropolitan Baptist Academy in Baguio City a Kindergarten I;

5. That Petitioners are desirous to adopt JAESTINE and they possess all the qualifications to adopt her and none of the disqualifications provided for by law,

6. That petitioners have been permanent residents of Baguio City for more than three (3) years together with their children who are likewise American citizens. Their children are studying in the Philippines. It is the intention of the petitioners to reside here permanently up to the time that the adoption decree is entered.

7. That the country of the petitioners has diplomatic relations with the republic of the Philippines. Under the laws of their country, the United States of America, petitioners have the legal capacity to adopt in said country and that they will allow JAESTINE to

enter the USA as their adopted child;

8. That EDWIN, the biological father or JAESTINE, has given his consent for the petitioners to adopt JAESTINE;

9. That the children of the petitioners have likewise given their consent to the adoption of JAESTINE by their parents - the petitioners;

10. That the adoption of JAESTINE by the petitioners is for the best interest of the child.

On the basis of the foregoing, the petitioners pray that after due notice, publication and hearing, judgment be rendered by this Honorable Court and issue a Decree of Adoption declaring minor JAESTINE MAE PIRECO PICAZO as the child of petitioners Juan Nathaniel M. Balangue and Marilou Robancho Balangue; and ordering the Local Civil Registrar of Caba, La Union and the National Statistics Office to CANCEL THE Certificate of Live Birth of JAESTINE MAE PIRECO PICAZO and, in lieu thereof, ISSUE a new one with the following entries: Nme of Child : JAESTINE MAE R O B A N C H O BALANGUE; Name of Father : JUAN NATHANIEL M. BALANGUE; Name of Mother: MARILOU R O B A N C H O BALANGUE

Finding the petition to be sufficient in form and substance, let the same be heard before the Regional Trial Court, Branch 4, Baguio City on October 13, 2005 at 8:30 o'clock in the morning at which place, date, and time the petitioners shall prove their case. Any person interested may appear and show cause, if any there be, why the petition should not be granted.

Let a copy of this Order be published at the expense of the petitioners in the JUNC-

TION, a newspaper of general circulation in the City of Baguio and in Benguet Province once a week for three (3) consecutive weeks.

The petitioners are directed to make an appointment with the Social Worker for the purpose of conducting the required case study on the *minor JAESTINE MAE PIRECO PICAZO*. The Court Social Worker is required to submit to the Court the case study not later than October 10, 2005.

SO ORDERED.

City highlights TB prevention

BAGUIO CITY – The city government sought to increase awareness on the prevention of tuberculosis (TB) in line with the celebration of the National Tuberculosis Day on August 19.

At present, TB is the sixth top cause of death among Filipinos as per the first semester report of the Dept. of Health.

Mayor Braulio Yaranon and city health officer Dr. Florence Reyes advised residents here to familiarize themselves with the disease’s prevention measures to avert the possibility of contracting the disease and with its symptoms and cure to ensure healing of the patient and avoid further spread of the disease.

However, the emphasis is on the fact that TB is preventable and curable, the officials stressed.

TB is caused by a germ called “tubercle bacilli” which is spread through coughing and sneezing.

Its common symptoms are cough of two or more weeks. Chest and back pains, loss of weight, afternoon fever for a month duration and phlegm with blood.

A person can contract the disease by inhaling germ-laden air from a person sick with TB when he coughs or sneezes or the dust carrying TB germs arising from sputum of a sick person; by using the domestic utensils of an infected person; by kissing, fondling or taking care of the baby by an infected person; sleeping together with a sick person; employing infected maids for children; and by drinking milk from tuberculous cattle.

A person sick with TB should have a separate bed or room when sleeping and separate domestic utensils for eating and drinking and articles for sleeping and cleaning up.

He/she must cover his/her mouth and nose with a handkerchief when coughing or sneezing and must not spit anywhere but in a paper or plastic bag, which should be disposed by burning.

The patient must avoid going to crowded places, have plenty of rest, sleep in well-ventilated room, must eat nutritious food, minimize vices, avoid smoking and must consult the doctor often.

TB can be prevented by avoiding close contact with a TB patient, by practicing good health habits and by availing of the BCG vaccine for children. – aileen p. refuerzo

BHD conducts free pap smear, breast exams

BAGUIO CITY – Thw Baguio Health Department will render free Papaniculao or PAP smear and breast examination to interested women for the whole month of August as part of the city's celebration of the population month.

Pap smear is an effective screening tool for cervical cancer. An annual PAP Smear is recommended by health professionals for women who are 18 years of age and over and those sexually active. Breast examination is also for the early detection of breast cancer.

"Cancer is curable at its early stage that is why early detection and treatment is very important," said City Health Officer Dr. Florence Reyes.

Also in line with the celebration, the city population office (CPO) will conduct a series of symposia to solicit support for House Bill 3733, an act providing for integration and comprehensive national policy on responsible parenthood, population management and human development creating responsible parenthood and population management council and for other purposes.

Reyes said it is the thrust of the CPO to promote responsible parenthood and reproductive health.

Reproductive health is the state of complete physical, mental, and social well-being in all matters related to the reproductive system and its functions and processes.

The components of reproductive health include maternal and child nutrition, family planning, prevention of sexually transmitted infections and HIV/AIDS, violence against women, prevention of abortion, adolescent reproductive health men's reproductive health, and treatment of infertility among others.

"Responsible parenthood as defined by the Commission on population is the will and ability of couples and spouses to respond to the needs and aspirations of their families and children," said Teodora Catolos of CPO.

President Gloria Macapagal-Arroyo clarified the definition in her speech to launch the framework for women on March 8, 2002 in Pasig City. "Parents should learn about their duties to their family and children, and to each other that they can raise religious beliefs and sensibilities of our culture." She said.

Responsible parenthood involves the practice of family planning or the use of safe and legal contraception to prevent unwanted pregnancies.

The young adolescent fertility study conducted by the World Health Organization in the Philippines in 1994 revealed that 4 of 20 females become pregnant before they turn 20, 30 percent of annual births are teenage pregnancies, and 21 percent maternal death rate is among 15 to 24 years old. – Art Killip

Litterbugs desecrate city cemetery

The city's public cemetery is not only for the dead. Litterbugs have desecrated it by turning it into a convenient repository of their trash.

Some boy scouts who were supposed to do a good turn at the congested burial grounds found this out, prompting mayor Braulio Yaranon to act.

“Some boy scouts who volunteered the tomb of Vjoe de Guia and its environments at the Heroes Hill portion of the city cemetery have reported that the area has become a veritable dumping ground for garbage,” the mayor said in a memorandum to city health officer, Dr. Florence Reyes and city environment and parks officer-in-charge Josephine Chan.

De Guia Jr., a son of former city mayor and Baguio booster Jean de Guia, perished during a plane crash while the country's contingent was on its way to attend the World Boy Scouts Jamboree in Greece many years back.

“Take appropriate action to clean the area and prevent people from dumping garbage therein,” the mayor said in his order last Monday.

He asked Reyes and Chan to coordinate with barangay officials within the vicinity in preventing the conversion of the cemetery into a garbage dump. – RD.

Technical working group formed to spearhead validation of inputs for MTDP

BAGUIO CITY – Mayor Braulio Yaranon has formed a technical working group (TWG) to spearhead the validation and consolidation of the development thrusts and strategies culled from the recently concluded planning congress as inputs for the city's Medium-Term Development Plan (MTDP) for the years 2005-2010.

To be headed by city planning coordinator and City Development Council secretary Arturo Orig as action officer and Cesar Liporada as assistant action officer, the TWG will be composed of representatives from the city government and private organizations representing the various sectors of the local community.

The validation will be done in a ten-day marathon technical conferences to be scheduled anytime this month upon the completion of the physical and financial requirements, according to Engr. Evelyn Cayat of the city planning office who heads the city planning office technical staff which acts as administrative support group to the TWG.

In his Administrative Order No. 105, the mayor noted the need for the planning congress outputs to be “consolidated, verified, validated, refined, fine-tuned and packaged before the CDC and the executive and the legislative branches of the local government could use it to guide the city's annual budget preparation and operations.”

“The refinement of said output requires the involvement of a composite team from the Congress participants who can qualify and validate the perspectives of the issues and recommendations that will lend feasibility to the MTDP,” the mayor noted.

He said the refined output to be contained in the MTDP framework and a medium-term list of priority programs and projects must be passed upon by the CDC before it recommends the approval and inclusion of said priorities in the 2006 budget proposal.

The members of the TWG are Vice Mayor Reinaldo Bautista Jr., Councilors Rufino Panagan and Jose Molinta, punong barangays Editha

Ibarra, Albert Della and Jaime Rillorta, University of the Philippines professor Lorelei Mendoza, Engr. Rolando Reyes of the Dept. of Environment and Natural Resources, Marlene De Castro of the BCYA, Nini Rosgal of the FSCAP, a representative from the Technical Education Skills Development Authority (TESDA), Arch. Elvis Palicdon of the United Architects of the Phils. Summer Capital, Engr. Johnny Oamil of the Philippine Institute of Civil Engineers,

Nicolas Tabora of the Baguio City Tourism Council, Rhoda Buenavista of the Jaime V. Ongpin Foundation Inc., Rosella Bahni of Gabriela, tourism supervising operations officer Benedicto Alhambra, Napoleon Javier, executive assistant IV Evelyn Lorenzo with SPREAD Inc.'s Fr. Carmelo Carreon, Rosalio Goze and Delia Abalos as facilitators.

The TWG will have the following functions:

- Assess previous plans laid out vis-à-vis the current ones;
- Identify projects in the previous plans which were not implemented and arrive at a decision on which ones to adopt for inclusion with the current ones;
- Identify projects which are ongoing which must be continued by reconciling them with the current plans;
- Evolve the MTDP framework and medium-term priority PAPs for focused on resource allocation and management;
- Based on the raw outputs, formulate development parameters, strategies and policies and a strategic framework plan;
- Design a strategic management mechanism to implement MTDP drawn up based on the planning congress outputs; and
- Submit all its outputs for use by the CDC and the executive and legislative branches of the city government. – aileen p. refuerzo

Mayor fine tunes development thrusts for Burnham Park

BAGUIO CITY - Mayor Braulio Yaranon last week issued an order to effect what he describes as "major development directions" for Burnham Park here that aims to fast-track the development of the city's most popular promenade center.

In his Administrative Order No. 110, the mayor reinforced the composition of the Burnham Park Management Authority (BPMA) which manages the park and at the same time set minimum guidelines to set the park's development in the proper direction.

The revamp, according to the mayor, aims to include more representatives from the professional and basic sectors who he said can "complement the organic expertise of the city government to effectively and efficiently manage the park."

The BPMA will be chaired by the mayor himself with acting city administrator Benedicto Alhambra as co-chair and the secretary to the mayor and acting head of the city environment and parks management office (CEPMO) as action officers.

In his order, the mayor directed the committee to take stock of all the activities and operations at the park which will be scrutinized to serve as basis in fine-tuning the thrusts for its development.

The mayor tasked the BPMA to submit within one month a comprehensive assessment of the present land use and activities at the park.

This will include the following:

- Economic activities in the park including all concessionaries, contracts, permits and tax clearances, specific legal bases for concessions and other economic activities;
- Income and expenditure statement for the past five years detailing the annual subsidy from the Philippine Tourism Authority and collection from all economic activities such as trade fairs, special events and other informal economic activities and fund utilization;
- Sports and recreation areas and similar facilities with infrastructure including parking and other built-up areas and the management arrangements thereof; and

Mayor appeals to bwd board: uphold rejection of bulk water project

BAGUIO CITY – Mayor Braulio Yaranon appealed to the Baguio Water District manager and members of the board of directors to uphold the rejection of the Bulk Water Supply Project of the Benguet Corporation as decided by the board last May 14.

"The bulk water delivery project may have become an unwanted 'appendix' that should be excised, as it was already excised when the BWD Board rejected the same by failure to muster the vote of a majority of the board on May 14, 2005," the mayor noted in a letter.

The mayor was reacting to new developments that the board will again vote and might possibly reverse its earlier decision to finally award the project to the BC being the winning bidder for the project.

"It is further respectfully submitted that a reversal of the action taken on May 14, 2005 would indicate that public interest and welfare of the 350,000 BWD consumers of Baguio City as well as that of the BWD itself, has been abandoned, to unduly favor the business interest of the project proponent," the mayor said.

BWD general manager Tessie de Guzman, however, disclosed that the five-member board has deferred action on the award until the issues raised by the city, the mayor, officials and residents of Itogon, Benguet and other groups, including the water district itself, are resolved.

"Under two resolutions, the Sangguniang Bayan of Itogon presented 14 issues, including that on first priority of town in the use of its water resources and on the need for an environmental compliance certificate," de Guzman said.

BC plans to tap its water supply in Itogon through the conversion of its abandoned open pit mine into an impounding dam.

She added that the board is planning to have a consulting firm assist the BWD in addressing the issues, also in relation to the still-to-be-finished piping distribution loop being constructed by the Local Water Utilities Administration, monitoring of the quality of the water to be delivered by BC and the volume needed to serve consumers.

Under the terms, the winning bidder is supposed to deliver 50,000 cubic meters daily, to be paid by the BWD whether or not the whole volume is distributed and sold to consumers.

With the drilling of new wells, de Guzman estimated the BWD's current daily production at 58,000 cubic meters, with systems loss between 25 to 30 percent for a net of 41,000 cubic meters.

With about 350,000 consumers averaging 150-liter daily use per person, the total volume needed would be about 52,000 cubic meters per day.

In his letter, the mayor raised anew several issues which he said the board should consider before voting positively for the project's award.

The issues were:

*Whether or not appropriate national administrative regulatory agencies concerned with the environment, and the use and disposition of water resources have issued requisite and specific permits for the development and operation of the project that involves collection of water from Itogon rivers and streams, traversing populated and agricultural areas, where gold panning, agricultural and other economic activity continues to exist; that likewise involves the impounding of surface water in the abandoned Antamok open pit mining area, and in abandoned Antamok mining tunnels; and deprives affected Itogon communities of water for domestic and agricultural uses.

"Undeniably, the 'bulk water' is contaminated from human and animal waste, garbage, agricultural fertilizers and chemicals..." the mayor noted.

- The issue of potability of water sought to be supplied to BWD through the "bulk water" project considering that no factual basis appears to have been shown, to establish the fact that water contaminated and polluted... can indeed be economically cleansed and processed for human consumption, on a large scale and volume, into safe, potable water to be supplied to the 350,000 residents of (Baguio), and that furthermore that the project proponent in fact has such process at its disposition;

- The issue of whether or not approval of the bulk water by the local government units of Itogon and Benguet province is required by Republic Act No. 7160 and if so, whether or not such authority has indeed been obtained beforehand; and

- The issue of where or not the project is still necessary, feasible and advantageous to the BWD and its consumers considering the successful drilling of productive deepwells.

"Undeniably, deep well water is safe, potable and can be delivered at very much lower prices compared to projected water rates from the bulk water project, to BWD consumers; and since undeniably, Baguio City lies in the natural flow of underground water aquifers fed by the Ambuklao and Binga dams, the forest watersheds of Mt. Sto. Tomas, Camp 8, Camp John Hay, Busol, Buyog, and Irisan and the Bued/Agno River basin, the Gold river and other river systems of Itogon, La Trinidad, Kabayan and Bokod, the capacity of BWD deepwells can reasonably be expected to be maintained and preserved for generations through (various reforestation activities," the mayor said. - aileen p. refuerzo and ramon dacawi
