WHAT TEACHERS ARE SAYING:

I love these! I have them hanging in my classroom and on my music cart!

Kids have started to ask me about them and it's a great way to let them know how music makes you feel!

I love these! I have several hanging in my music room. My choir students love to read them and discuss them!

What visual pleasure to walk in my office/music therapy room every day. They remind me on tough days what I love about the students and adults I serve. Thanks.

I want my students to know there is more to music than just symbols and notes. These quote posters are perfect in getting that message across!

Really beautiful. I have associated each one with an element of music on my class boards. There are enough that they can be changed out periodically and remain relevant to the topic. The colors are bright enough to be attention-getting, but still fit in and be elegant.

I love these posters, especially the large printed option. I've added these to my room decor this year and the kids really enjoy them. Thank you!
