simply be

You want what's best for your child.
Yet, you want what's right for your budget and busy
life. And more, what is easier on the environment.

As a family owned company, we deeply understand.
That's why we are committed to providing not just
exceptional cloth diapers, but products that are
better for your child, your family, and our world.

better for your child

RELIABLE AND COMFORTABLE

Supreme comfort, superior fit, and unparalleled leak proof performance in every diaper — this is Thirsties' hallmark.

Providing the very best diaper for your child's well-being requires exceptional design, the highest quality fabrics, and sewing with the utmost care and attention. Take for instance, our signature leg gussets move with your baby to provide a custom fit and advanced protection against leaks — essential for controlling newborn messes and for babies on the move! Our Hook & loop or snap closures allow for the greatest adjustability for an amazingly snug fit. The use of our waterproof, yet breathable PUL, along with our ultra-absorbent microfiber terry or hemp jersey inner layer, in combination with our stay dry microfleece keeps your baby feeling dry and the messes inside.

Because of our high quality standards for raw materials and manufacturing, we offer one of the best warranties in the industry.

better for your family

AFFORDABLE AND EASY

Your baby will go through an astonishing 6,000 to 9,000 diapers from birth to potty. Using disposable diapers and wipes adds up to an average total cost of \$2,500. When purchasing Thirsties modern cloth diapers you will save up to \$2,000 during the diapering of your child while enjoying the same ease-of-use as disposables.

And big savings aren't the only bonus. With Thirsties, there are no late-night trips to the grocery store for more diapers, no emptying your diaper pail into your already full trash bin, no pins and no rubber pants. Thirsties modern cloth diapers go on your baby just as disposables do but with oodles more cuteness and style.

better for our world

USA MADE AND SUSTAINABLE

We are very proud of the fact that all Thirsties products are manufactured in Colorado, USA, by a group of very talented individuals, many of whom are moms who work in the comfort and convenience of their own homes. We are committed to fair and sustainable labor practices, providing people in our own communities with jobs, and helping local economies.

And we do not stop there. More than 90% of the fabrics and materials we use are USA-sourced. This reduces our carbon footprint, helps support domestic textile mills, and ensures the highest quality cloth diapers that will last wash after wash. In addition, we recycle 100% of our scrap fabric which is re-purposed for insulation and other uses.

Why do we go to so much trouble? Because socially and environmentally responsible practices are as important to us as they are to you.

Understanding Thirsties

Sizing:

One Size:

In an effort to maximize the affordability of cloth diapering your baby, Thirsties One Size Pocket Diaper and One Size All In One are designed to fit most babies from 8-40 lbs. They both feature three rows of adjustable rise snaps to customize the fit to your baby from "birth to potty".

Two Size:

Thirsties Duo Line is a two size diaper system designed to provide a secure customizable fit for your baby from 6 – 40 lbs. Each of the two sizes in the Thirsties Duo Line features three rows of snaps to adjust the rise to your baby's size and shape.

Sized:

Our Diaper Covers are part of our sized system and are available in four sizes; x-small, small, medium, and large. Sized diaper systems offer a specialized fit for your baby, but each size covers a narrower range than that of a Duo or One size system.

Components:

Hook & Loop Closure:

A hook & loop fastening system inspired by nature's cockleburs. Thirsties hook & loop is considered to be the strongest and most durable on the market. Hook & loop closures allow for the greatest adjustability for an amazingly snug fit. Thirsties diaper changes are quick and easy thanks to hook & loop closures!

Snaps Closure:

Our plastic snaps are used throughout the Duo line for the adjustable rise and also as a closure option. Snaps are very durable, easy to use, and are also strong deterrents to toddlers who prefer to be diaper-free.

Gussets:

A gusset is a crescent-shaped insert added to the leg openings of Thirsties products for added performance and expansion. Thirsties signature leg gussets move with your baby, providing advanced protection against leaks. The expansion and contraction of our leg gussets also allow for a more custom fit for all baby shapes and sizes. You'll find they are essential for controlling newborn messes and for babies on the move!

Fabrics:

PUL:

A waterproof, yet breathable, fabric used in all Thirsties waterproof diapers. PUL, which stands for polyurethane laminate, is made from a very durable (and colorful) polyester knit. No stuffy plastic or rubber pants! Thirsties PUL provides a very reliable, pliable, and comfortable outer layer for your baby's diapers.

Microfleece:

A soft, napped wool-like fabric made from synthetic fibers. Microfleece fabric does not absorb, but rather allows moisture to pass right through. Consequently, Thirsties diapers lined with microfleece provide a 'stay-dry' effect for your baby's comfort. Microfleece reduces diaper rash, resists staining, and is buttery soft to the touch.

Hemp Jersey:

Our custom hemp jersey fabric is as soft as your favorite t-shirt but is more durable than pure cotton of the same weight and absorbs 25% more moisture! By using hemp, we are able to offer a substantial amount of absorbency to your diapering system without adding a tremendous amount of bulk. No other hemp jersey on the market compares to the thicker, softer, and more durable hemp textile made to our exacting specifications. We know you will love it.

Microfiber Terry:

Our synthetic microfiber terry is used throughout our line as a soaker due to its performance characteristics of being highly absorbent and quick drying.

Organic Cotton:

Organic cotton is soft to the touch, absorbent, and chemical free, making it an excellent choice for babies with allergies or sensitive skin. You will find organic cotton in the body of Thirsties Natural One Size all in one and Natural Newborn all in one Diapers as well as our Organic Cloth Wipes and Organic Cotton Doublers.

Bamboo Cotton:

Our bamboo cotton is irresistibly soft, naturally organic and ultra-absorbent, able to hold 3 times its weight in water. This porous fiber is breathable and wicks moisture away from baby's skin, leaving baby cool and dry. Bamboo cotton is used on Thirsties Natural One Size Fitted Diaper and our Natural Newborn Fitted Diaper.

How many cloth diapers do I need to get started?

How many daily changes should I expect?

| | |
|---------------|---------------|
| Newborn: | 10-12 diapers |
| 6-12 months: | 8-10 diapers |
| 12-24 months: | 6-8 diapers |
| 24+ months: | 4-6 diapers |

How many diapers will I need in rotation?

| | |
|---------------|---------------|
| Newborn: | 20-24 diapers |
| 6-12 months: | 16-20 diapers |
| 12-24 months: | 12-16 diapers |
| 24+ months: | 8-12 diapers |

How many covers do I need?

A single Thirsties Duo Wrap or Thirsties Diaper Cover can be wiped clean and reused several times before requiring a full washing. Thirsties recommends one wrap for every 3-4 diapers.

Thirsties One Size All in One reusable diaper truly challenges the convenience and trim-fit of a disposable diaper. This diaper goes on in one simple step, offers absorbency, waterproof protection, and adjustability all rolled up into a stylish, comfortable and extremely effective cloth diaper. The soaker is sewn in on one side (at the top of the diaper), which makes adding extra absorbent layers a cinch and tremendously decreases drying time.

All in all, Thirsties One Size AIO gets a BIG thumbs-up from your wallet, your family, your daycare facility, and occasional caretakers alike.

cloth diapers

98%

of our customers think that using cloth diapers is easier than they thought or about what they expected.

Top 3 reasons our customers choose Thirsties:

- 1: Thirsties comes highly recommended by other moms
- 2: They read positive reviews online.
- 3: Thirsties products are made in the USA

Our customers say Thirsties is their favorite diaper because:

they have the best fit and highest quality for the price.

Thirsties Duo Wraps are completely waterproof yet remain breathable, pliable, and very comfortable for your baby's delicate skin. They are the preferred wrap for prefolds or trim fit diapers, such as our Natural One Size Fitted diaper. Leg gussets provide advanced leak-proof protection and bindings are super-soft against your baby's skin. Thirsties Duo Wraps are a very trim fitting cover and with the adjustable rise you will only need two sizes from birth to potty.

The inside of Duo Wraps can be wiped clean between uses allowing for fewer wraps in rotation and greater affordability. We recommend one cover for every 3-4 diapers in rotation (excluding diapers with waterproof exteriors).

Thirsties Duo Hemp Prefold, Duo Fab Fitted, or Stay Dry Duo Insert

The generous cut of Thirsties Diaper Covers presents a superior waterproof, yet breathable exterior on any type of flat, prefolded, or fitted cloth diaper. The cover's roomy fit is ideal for chunky babies, over bulkier diapers, and nighttime systems. Leg gussets add advanced leak-proof protection and the bindings are super soft against your baby's skin. Newborn/preemie and x-small sizes feature an umbilical cut out for your newborn's comfort.

Want to get away with fewer diaper covers in rotation? The laminate that lines the inside of the soft polyester can be wiped clean between uses, then wash when thoroughly soiled. We suggest one cover for every 3-4 diapers in rotation (excluding diapers with waterproof exteriors).

duo hemp prefold

Our innovative prefold

Suggested Price: \$8.00 each

Thirsties is revolutionizing the most widely used cloth diaper in the world! The panels of the Duo Hemp Prefold are two layers thick with openings on each end. This unique design allows for a thorough washing and quicker drying in comparison to ordinary prefolds.

Our custom hemp jersey is as soft as your favorite t-shirt and is knitted here in the USA. Hemp is an ideal diaper fabric with antimicrobial properties and is more durable and absorbent than cotton. In fact, our hemp jersey is 25% more absorbent than a prefold of the same weight made from cotton alone! This translates into a very trim and effective cloth diaper with a hefty amount of absorbing power.

sizing:

| Size | Before Washing | After Washing |
|------|----------------|---------------|
| One | 13.5h x 15w | 13h x 12.5w |
| Two | 16.5h x 16.5w | 16h x 14w |

features and benefits:

- Revolutionary design is easy to clean, quick to dry, and grows with your baby
- Made from soft organic custom hemp jersey knitted in the USA
- 25% more absorbent and much more durable than pure cotton
- Maintains a trim and comfortable fit

diaper pail liner

Dirty diaper storage at home

Suggested Price: \$17.50 each

Don't air your dirty laundry! Now Thirsties has a better solution to keep your diapers under wraps. We're excited to introduce our new line of pail liners in several of Thirsties' most popular colors. These stylish bags are not just "for looks"; they have been completely redesigned with waterproof PUL and fully-taped waterproof seams to keep your baby's biggest messes sealed within.

This awesome pail liner provides a perfect fit on pails up to 54 quarts, while an attached closure strap holds in odors while carrying your liner to the wash.

To clean your pail liner, simply toss it in the wash with your soiled diapers. We recommend purchasing at least two liners to keep in rotation.

features and benefits:

- Waterproof PUL and fully-taped waterproof seams prevent leaking and wicking and keep moisture out of your diaper pail
- Elastic opening provides a snug fit on diaper pails up to 54 quarts
- Sewn-in closure strap keeps odors in when liner is not in a diaper pail
