WHAT TEACHERS ARE SAYING:

These posters are so beautiful! My middle schoolers love them! I LOVE this resource. So many visuals all in one purchase. They are easy to read and very clear for students. Thank you!

These posters were the perfect way for me to get a fresh look for my music room. I posted them along the top of two walls creating a type of border that was not only attractive, but informative. Love it!

Had these elegant and colourful cards photo printed as 4x6 matte photos and scattered them over every wall in my music room. Adds a nice visual touch as well as a point of interest. Thank you!

These posters are like pieces of art. Just beautiful. I love them in my classroom.

I am loving having these visual reinforcements of what we are learning up in my classroom. Not only do students reference them, but they look amazing!

These are beautiful and we use them both as decor for our music space and for directed learning activities and games.

My students are attracted to the color scheme and I love when they see a symbol on the wall somewhere and then find it in their music!
