Shapes

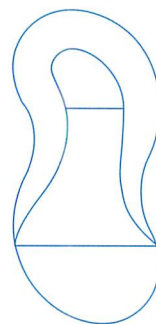

We can build any shape and size.

Kafko™ has numerous selections of shapes and sizes which allows you to create a luxurious and inviting setting for many great get-togethers. Four, six and eight foot walk-in staircases are a popular option for most pools. With the help of your professional pool dealer, you and your family will be able to design a backyard that will beautify your property and create a private retreat. Many more shapes and sizes are available, ask us for more information.

Construction

Rugged construction and top quality materials.

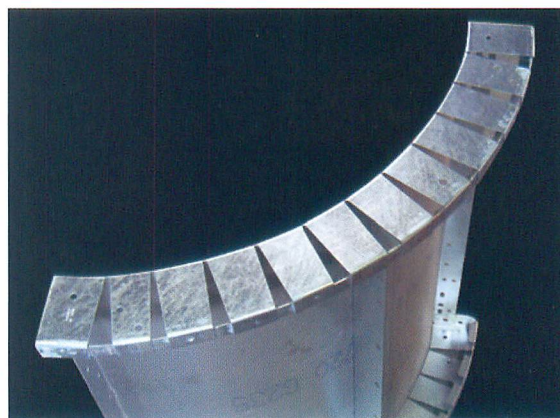

Kafko's newest technologies go into the construction of all of our new pool designs. Our registered Press-Lock® systems are a large part of why Kafko™ is happy to offer a Lifetime, One-Time Transferable warranty on every pool we build.

Manufacturing and Engineering

Our quality industry proven Tru-Radius steel wall, vinyl liner swimming pools, available in over 200 shapes and sizes, have set the standard in the swimming pool industry. We at Kafko™ are extremely proud of our innovative method of manufacturing and advanced engineering capabilities. Press-Lock® systems represent our industry's state of the art method of manufacturing, replacing the old welded systems. The patented Press-Lock® fastening systems do not destroy the integrity of the galvanized coating.

Engineered Pool Wall System

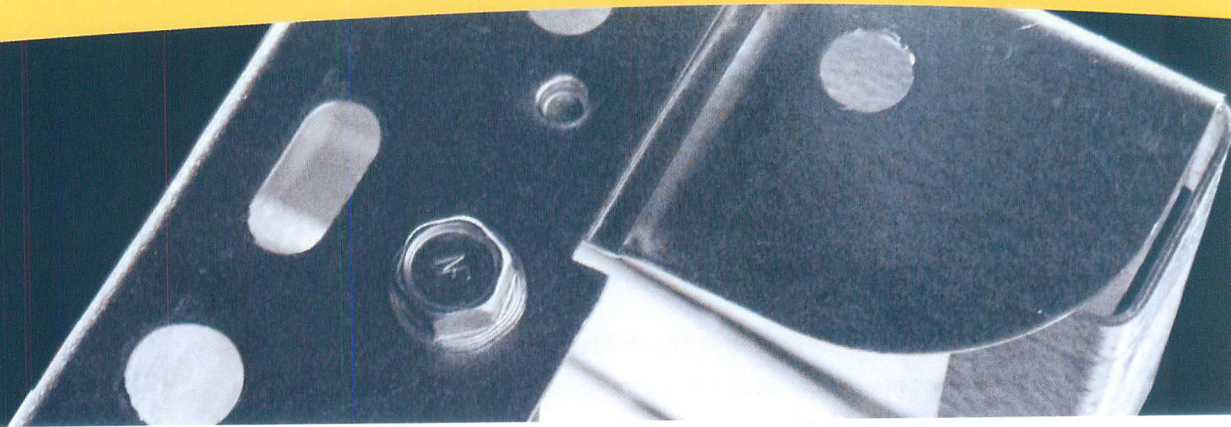

Panels are made from 14 gauge steel with G235 (Z720) galvanized coating. Both straight and curved wall panels have strategically located holes at both ends ensuring positive and accurate alignments. The ends of each panel are made with a recessed end, making for a seamless panel connection. Straight panels are formed using the Kafko™ TriBend method, which provides much more strength than the industry standard double bend panel.

The Tru-Radius steel panels which are used on our curved wall pools are designed to ensure that every Kafko™ pool is constructed to exacting specifications.

All panels come with a full 5" wall brace designed to make the Kafko™ straight steel panel the strongest design in the industry.

Superior Strength of Steel

From skyscrapers to bridges, engineers turn to steel when maximum strength is called for.

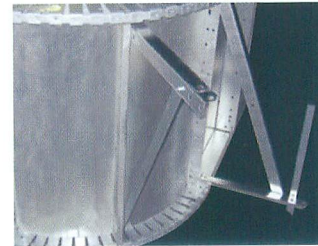

Unique Wall Brace System

The double "L" design makes our Kafko™ panels the strongest in the industry. The galvanized steel braces are press locked in place, not only to the back of each wall but also on the top and bottom, ensuring that each panel retains its original pre-formed shape.

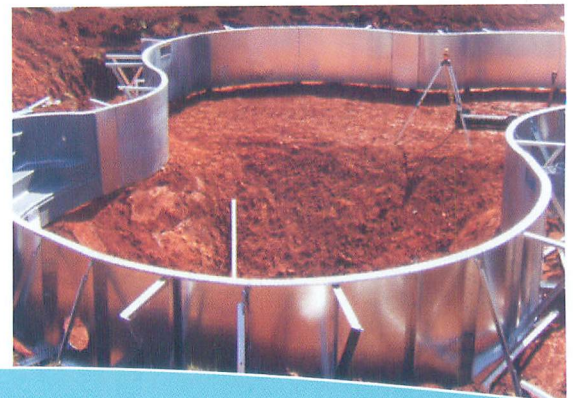

Adjustable "A" Frame

Kafko's engineers have designed a unique heavy-duty adjustable "A" frame that ensures perfect alignment. This emphasis on strength assures that you receive a structurally sound Kafko™ pool.

Optional Deck Support System

The Kafko™ single, double "A" or box deck support systems were engineered to support the deck around the pool. This system also adds additional rigidity to the pool walls.

Unique features

Circulation Package by

The most complete water circulation package

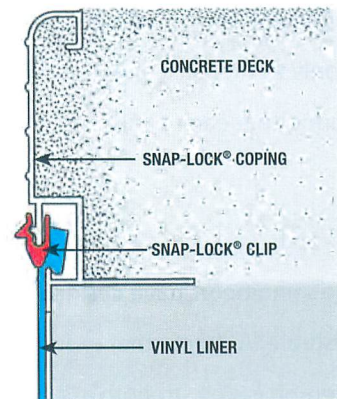

Super-Skim® Circulation components are molded out of durable, non-corrosive ABS. They are designed for residential or commercial liner pool installations and contain a Wide Mouth fully automatic skimmer, 2 easily adjustable return fittings, and two VGB Compliant main drains if specified for your pool.

The Super-Skim® return fitting is devised for easy directional adjustment of the water flow returning to the pool from the filter, improving water circulation. Also added to the return fitting is a beauty cover that conceals the screw heads and locks the directional eyeball into the desired position. Every Kafko™ pool has a minimum of two return fittings.

SNAP-LOCK® Patented Coping

The patented Snap-Lock® coping design ensures the liner is locked in the coping track around the pool. This feature eliminates dealer call backs. The Snap-Lock® coping is available in several profiles to accommodate the finished look you choose for your pool. I.E. concrete receptor for concrete decks, front mount and top mount track for brick coping, light track coping for fiber optic light systems, double track cover lock designed to hold a winter cover, also available in gray. Ask your dealer for complete details.

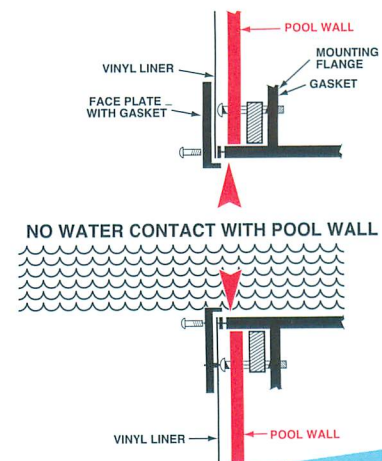

Cross section of Snap-Lock® coping

WATER-LOCK®

Design Patented Wide Mouth Skimmer

Super-Skim® Patented Wide Mouth Through the Wall Mount Skimmer eliminates any water contact with the Tru-Radius steel wall panel. This exclusive Water-Lock® feature, not found on other pools, ensures long life and trouble free operation of your pool. The skimmer is also sealed with gaskets on both sides of the pool wall sealing out any possible seepage of soil or water into the pool. A skimmer beauty cover has been added concealing the visible screw heads around the opening of the Wide Mouth Skimmer. The Super-Skim® Skimmer System comes complete.

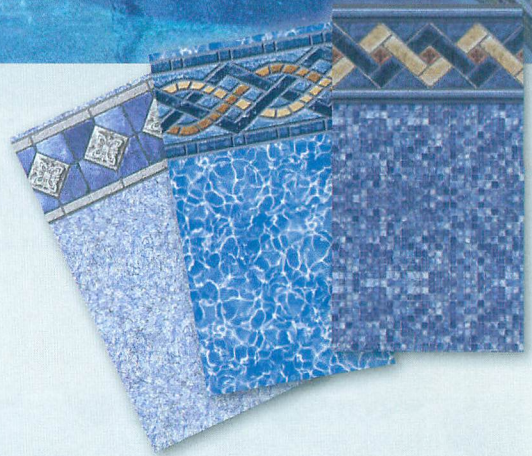

liners

Kafko™ vinyl pool liners are made using virgin vinyl material and designed to withstand the rigors of the environment. Kafko™ vinyl is manufactured with bleach resistant inks to help guard against fading providing for a long lasting, new appearance. All Kafko™ vinyl is made with ultra-violet inhibitors to reduce damage caused by sunlight. Special algae inhibitors are added to help back up normal sanitizers. Our Premium vinyl liners are computer controlled and manufactured in our own facilities under strict Quality Control Procedures, ensuring an exact fitting Kafko™ True-Fit® vinyl liner.

Computer Controlled Vinyl Cutting

Kafko™ strives to stay on top of leading technologies in the swimming pool industry. With our computer aided automatic cutting machines, we have once again broken new ground. State-of-the-art, computer driven technology, in conjunction with an experienced, skilled designing staff, ensures you, the Kafko™ consumer, a True-Fit® liner.

Kafko™ Liners are available in a wide variety of printed, plain and border patterns, which can be custom designed for special shapes.

For up to date liner selection please request a complete brochure from your dealer or visit our web site at: www.kafko.com

KAFKO™
POOL PRODUCTS

Accessorize

Kafko™ provides an array of different product lines to transform your backyard into your personal Oasis.

Waterfalls

Bring your pool to life with the soothing sound of falling water. Whether you are building a new pool or updating your backyard, waterfalls are a simple, elegant way to beautify your pool.

Steps

You are only steps away from your beautiful pool. Whether you're looking for simple steps or additional features like hydrotherapy jets or lounging steps, Kafko™ has it all. Our wide selection of step sizes and types will ensure you find the perfect fit for your pool. Ask about our new coordinated colors now available.

Slides

Add some fun for the whole family by introducing a slide to your poolscape. Choose from several models to blend with your décor. From standard to cascading water features, all are guaranteed to add excitement to your swimming experience!

Spill-Over Spas

Relax in one of Kafko's spill-over spas with the help of massage jets and the sounds of the waterfall. With several models and colors to choose from, you'll be sure to add a touch of luxury to your backyard. Ask about our new coordinated colors now available.

Diving Boards

Take the plunge! Enhance your inground swimming pool with a quality diving board and enjoy seasons of excitement. Remember safety comes first – be sure to follow proper guidelines for safe diving.

Rails & Ladders

Getting in and out of a pool has never been so easy. Choose from a variety of rails and ladders or opt for an In-Wall ladder to avoid interference with automatic pool cleaners and covers.

Underwater Lighting

Underwater pool illumination has a breathtaking effect; an ever-changing waterscape of lights is produced by the shimmering glow, creating dazzling dancing patterns all around your pool.

Filters, Heaters and Pumps

Maintain crystal clear water and extend your swimming season for half the energy cost with newly developed high efficiency pumps, heaters, and filters.

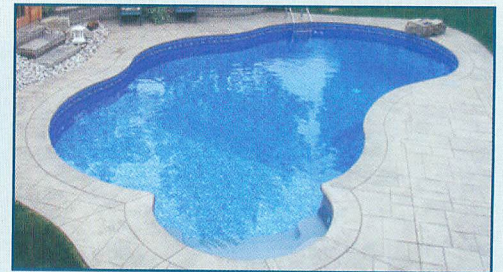

Pool Decks

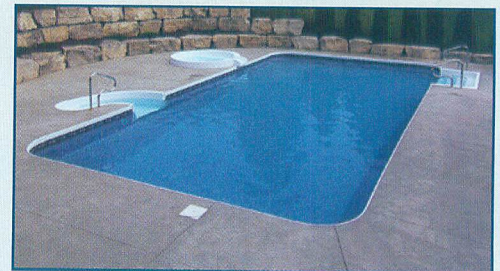

There are countless number of options available in pool deck finishes. With the guidance of your dealer you can achieve the look you desire.

Kafko™ Safety Covers

WHEN YOU DON'T WANT YOUR POOL LOOKING LIKE THIS...

Opt for a Kafko Safety Cover and you get **no more:**

- Standing Water
- Mosquitoes/Insects
- Leaves, Branches & Odors
- Hard to handle Waterbags/Tarps

We call it "Safety Cover" for a reason...

The Kafko Safety Cover is designed to protect both your pool and your family.

At Kafko, we take safety seriously.

Our pool covers are manufactured to your specific pool size and shape, using only the highest quality raw materials and our state-of-the-art production methods.

Not only does this allow for a good looking, clean outline of your pool, but more importantly, when properly installed, the Kafko Safety Cover will help prevent accidental intrusion by children and pets.

**20-YEAR
WARRANTY**

WE BELIEVE IN OPTIONS!

Choose the color that best blends with your backyard!

The choice is yours. REALLY. We have several colors to offer as well as different types of materials. Don't need the maximum shade coverage? That's ok, you can opt for a lighter weight cover and still be covered with our limited 20-year warranty.

SUPREME MESH®

98%
SHADE

The benefits of a solid cover, with the ease and handling of a mesh.

The Supreme-Mesh® safety cover material is manufactured with a light and tight woven material. Supreme-Mesh® safety covers are designed to allow water through for drainage and safety but keep sunlight and debris out for ease of maintenance and peace of mind.

Available in green only. US Patent 6,886,187-98

DURAVEAVE®

Feather Weight

Lightweight DuraWeave® safety covers are about half the weight of our standard solid cover.

DuraWeave® solid safety covers will block out all of the sun's rays, yet the new lightweight material allows for easy installation and removal. Comes standard with single-coil springs.

Available in green and blue.

Maxi-Mesh®

A customized engineered mesh designed to inhibit the growth of algae in your pool.

Durable long lasting polypropylene mesh material. No more standing water in the springtime for insects to breed, our mesh material allows water and snow to drain right through. Built-in durability and strength will protect your family and your investment.

Available in gray, tan, blue and green.

Super-Scrim®

FULL WEIGHT

Heavy-duty solid safety covers stand up to whatever mother nature can dish out.

The full-weight solid safety cover material will completely block out all the sun's rays. One of the industry's most durable covers comes standard with the EASE-A-DRAIN™ system, keeping all the debris and sun's rays out, allowing only water to pass into your pool.

Available in green and blue.

Kafko™ and Coverstar™ Automatic Covers

Kafko™ and Coverstar™ offer an Automatic Cover System to fit almost any pool shape. The fabric used for the cover is a specially formulated heavy-duty vinyl fabric with a polyester weave and an extruded coating process to give you superior performance.

Your automatic pool cover mechanisms are made of anodized marine grade aluminum, stainless steel, and all stainless steel hardware. These industry-leading components have been chosen for their superb quality and reliability, and because these metals are impervious to the harsh environment of a pool.

Reliability and quality is built into your automatic pool cover by Kafko™ and Coverstar™.

**Of all the things we protect,
the most important are families.**

**That's why Kafko™ Automatic Safety Pool
Covers are made by Coverstar™.**

Reliability and quality are built-in because Kafko™ and Coverstar™ specify components with the highest quality and technical design in the industry.

Steel Steps - The perfect entry way into your backyard paradise

The Kafko Steel Step is more than just a swimming pool step. It's a beautiful part of the pool structure. The vinyl liner literally covers the entire surface of the pool up to the decking, including the steel step, creating a finished, custom look. This versatile step will quickly become the favorite area of your pool. Steel steps come with a Lifetime, One-Time Transferable warranty.

Limitless Options

The Kafko Steel Step is available in many standard styles and can be installed in a variety of positions. Combine the Kafko Steel Step with a bench or sunledge for a customized poolscape that suits your style. Put the finishing touch on your poolscape by choosing a liner pattern from our large selection. It's your place to sit, relax, and cool off on a hot summer day. It's the perfect entry way into your backyard paradise.

Quality

Pools and the materials used to build them are not equal. We use only the best materials, top-notch engineering, and innovative manufacturing technology to create pool components of outstanding strength and durability.

Wedding Cake Step

- Adds pizzazz to old and new pools
- Raised tread pattern for slip resistant finish
- Revolutionary clip system to secure liner to step for snug fit
- Easy to install, no need for concrete forms and messy concrete
- Molded shell makes for consistent liner installation and fit
- Totally non-corrosive, non-abrasive and non-stressful
- Fits all vinyl liner pools – polymer, steel, wood, concrete and fiberglass
- Comes with a 25-year warranty

Available in 8 models:

- 180° Straight
- 90° Square Corner
- 6" Radius Corner
- 2' Radius Corner
- 8'-6" Radius
- 9' Radius
- 10' Radius
- 11' Radius

+ Pool Safety

Awareness and understanding of water safety practices can reduce the risk of serious injury. Following safe water tips are essential for you and your family to have years of enjoying your pool.

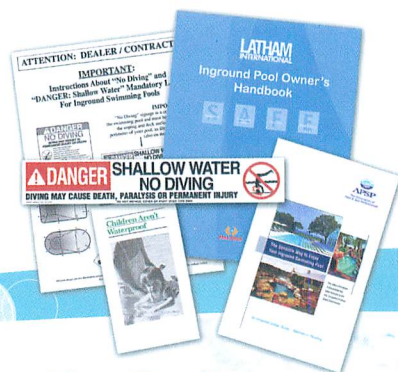

Playing it smart makes sense.

IMPORTANT: A number of very important items that are essential for the safe use of your pool may not be visible in many of the photographs, either because of perspective or camera angle, or because they were removed for photographic purposes. These devices include:

- Safety ropes, which should remain in place at all times
- "No Diving" signs which are provided with all Kafko™ pools and which should be installed in accordance with Kafko™ instructions, on the coping or liner, where they can be clearly visible
- An area sign which is provided with all Kafko™ pools and must be permanently and conspicuously affixed in the pool area where all users can see it
- Necessary means of exit and entry into the pool
- Fencing with a self latching gate, and other barriers that can assist parents in preventing unsupervised access to the pool by children
- Approved drain covers and other devices to protect against suction entrapment
- Minimum required inlets and returns to ensure proper water circulation
- Appropriate in-pool lighting if the pool will be used after dark

All of these devices should be installed in accordance with Kafko™ instructions, ANSI/NSPI or ANSI/APSP standards, as well as State and local statutes and codes.

Diving boards and slides require minimum depths and distances and must only be installed and used in strict compliance with the equipment manufacturer's specifications and ANSI/NSPI or ANSI/APSP standards. If the pool is labelled by us as NON-DIVING, then diving equipment may not be installed and any such equipment must be removed before the pool is used.

Smart pool owners always think safety first. They take specific steps to ensure that their family, friends and guests are knowledgeable about the safe and sensible use of their pool. They also:

- Ensure that their pool is never used unless there is adequate supervision
- That their pool is kept in good repair and is not used when there is a missing or broken drain cover or other component
- Ensure that ALL CHILDREN using their pool are supervised constantly
- That anyone under the influence of alcohol, drugs or stimulants that would impair their abilities or judgement does not use the pool
- That their pool is protected by appropriate barriers to unsupervised entry including fencing with self latching gates, covers, alarms, etc.

To assist you, a number of very important items of safety literature are included with each pool. We must insist that you read each item carefully and follow its instructions. These are:

- Pool Owners Safety Handbook
- Vinyl Swimming Pool Liner-Warranty
- "Notice" Card
- "Children Aren't Waterproof" Book
- APSP "Sensible Way" Book
- "No Diving" Labels
- Plaque

Make sure your builder supplies you with all of the safety information that accompanies your pool and installs the enclosed warning stickers and area sign where they can be clearly visible to all who use the pool.

For more information with regard to the ANSI/NSPI or ANSI/APSP standards or for other general information contact:
