

SATL

At the tender age of only 22, Satl has already fashioned a body of work to be proud of, and shows a maturity to his sound and musical approach that belies his newness to the game.

His ear for a strong hook and sample is evident across his work, and he has already produced a number of tracks that are consistently being drawn by a wide range of DJs, and have been released on leading labels such as Integral, The North Quarter, Shogun Audio and Fokuz.

With obviously still a huge amount left in the tank, he is sure to be a figure to watch very closely in the next couple of years.
