Introduction

A Message from the Directors.

Welcome to the new El Alson School, New Giza! This year has seen tremendous changes in the school as we settled in to our new site. All of us, managers, teachers parents and students have had to cope with not only the inevitable challenge of moving to a new site, more than twice the size of the old school in Haraniya, but with the difficulties of trying to function in a normal way when several of the buildings were only just finished or not finished at all!

As we come to the end of the first year, we are really looking forward to the new Sports Hall and pool and Performing Arts with drama, music and theater being finished. We have been able to work at a sensible and steady pace finalizing these complex and sophisticated facilities and we know they are going to be enjoyed by all the students next year. So, besides two very spacious and well-designed education buildings, the administration and engineering buildings, huge playgrounds and sports fields and lots of modern equipment and resources, we now have a school worthy of the students and parents in our community.

We have just completed our first 'new school' graduation which was a great success. In good faith we had set a date and time a year ago which then conflicted with the World Cup schedule, other universities' graduations and even a major student ballet performance at the Opera House! Somehow, we found a day and time that worked and our senior students were given a splendid send-off that they richly deserved as the pioneering graduates of the new school.

And now the Year Book is electronic! Although we are perhaps a bit old fashioned and prefer "real books" it's certainly much, much kinder to the environment and forests to produce it this way! So, here we are, a new school with a new modern approach and a lovely year book featuring all of our students. We hope you will enjoy it and to all our graduates, going on to university all over the world we send our very best wishes and every success in the future.

Colin and Karim Rogers and Soumaya Amr.
Directors.

Alsson Elkheir

#alssonelkheir 260 boxes went to our school workers and matrons and 40 boxes to families we support. This project would not have happened if it weren't for the collaboration and coordination between both the American and British Schools. This project was coordinated by the American Guidance team and supported by the British Senior Leadership Team along with the American Senior Leadership Team. Shout out to both teams! We are beyond proud of our Alssonians. Younger ones showed great interest and excitement to participate and older ones were a great support and set a lovely example. It was amazing seeing how the little Alssonians embraced this new experience and hopefully this experience helped them foster empathy and sense of giving.. A huge shout out to our student council members and senior students for their help and enthusiasm. WELL DONE TO ALL....May we do this over and over again

SIXTH FORM AIN SUKHNA TRIP

Residential Trips

the 6th Formers went to Ain Sokhna on their annual Leadership Trip for some much needed time together. Between University applications, mock exams, work experience and so much more, it's often hard to come together as one group. Accompanied by Ms Jen, Ms Abigail, Ms Trott, Ms Mona, Mr Tony and Mr AbdelHalim, the students took part in team games, sessions on supporting younger students and roasting marshmallows on the beach, all with a dose of winter sun. A great weekend, with a great group of students and teachers. Until next time...!

INJAZ ROOTS PROJECT

The Team Members :Ahmad Galal - Ali Mosharafa - George Fawzy - Mahmoud Allam - Mahmoud Roushdy - Malak Hatem - Malak Abou El Enein - Mohamed Akef - Mohamed Hosny - Mohamed Yehia - Nada El Fazary - Nadeem Helmy - Nour El Din Mahgoub - Rasheed Abou Gazia - Reema Bedewi - Seif Raouf - Seif Salama

As a part of work experience program the school offers a work experience project to Grade9 and 10. A group of grade 10 students are participating in the INJAZ Company Program. The collective group identified the problem with buying planting pots.

The problem with the current pots on the market is that they were limited in designs and not fully customizable and affordable. Our company identified the need for a product to revolutionize the current market. We target an array of social classes with their various planting pot designs.

A Huge shout out to @roots.gogreen for working hard and with passion proving that hard work pays off. Congratulations on winning the (Ready for the Market Award) @injazegypt

PARENTAL WORKSHOPS

Experiments for Teachers in Science

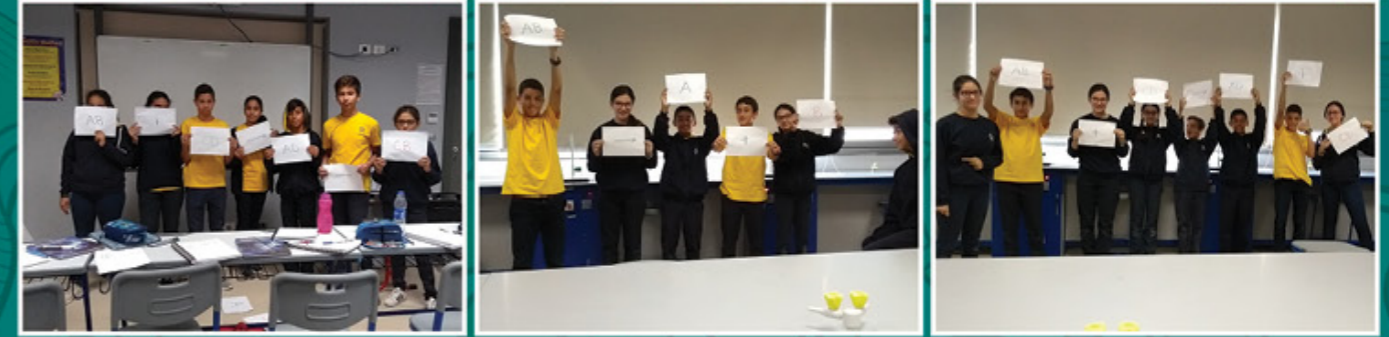

Experiments are fun for teachers too!
Here, the American section science teachers are designing a roller coaster model to test for its energy efficiency. The NGSS curriculum standard is currently being adopted by the American school. We want the best for our students so we have to work collaboratively on how to best implement the engineering practices in the classroom. If you have any inquiries about NGSS, please don't hesitate to contact our science department
