BETTY -

I love movies & I love TV, sometimes a little too much. It's a sad day when I don't have time for one quick film or at least 2 episodes of grey's anatomy (although now I'm caught up & I don't like this waiting game). I'm a bit of a gamer, if you ever played Jo & Mac then please be my best friend? I can't pick a favourite game, however Jeff Bridges himself couldn't tear me away from a new Final Fantasy. Which takes me to my next point, the Big Lebowski, I love it, I even named my packages after it. I like music, it's always played a big part in my life. You know those 14 year old, baggy jeaned, stripy socked, green day lovers? You know how annoying they are? Yes, I was one in my youth, yes, I too was annoying as hell. I'm not sorry. I'm a lot less annoying now, I promise. I like to nod along with Maiden, I like to melt away with Mogwai. Who DOESN'T love a bit of Bluegrass Disney? I also love animals. Dogs in particular. I have 2. I live with a cat, he's alright. I love to travel. Tokyo was the best. I think I've worn out Berlin. I love rain. I love sun. I love snow. I like a mild gust of wind.

DAVID -

I have worked in the Property Surveying and Facilities Management sectors for several years, though have been inspired by my amazing wife to get out the office, burn my boring suits, and take the plunge into the amazing world of photography. Having helped out at Tub of Jelly behind the scenes for a while, I am very excited to be able commit more time and energy into proving I am the real creative genius in our marriage. We have a very busy year ahead and I cant wait to work with some great people, and visit some amazing locations across the UK and beyond.

I love Matt Damon.

We don't have an 'ideal' couple but what we do know is that there's a few things that are important to us; you appreciate our style of photography & you trust our judgement. Most importantly? That you're good peoples. If we have a few things in common then that's another brucie bonus. We've styled our brand in such a way that we attract couples that we'd love to work with. We will not judge your special day, so if you don't have any bunting, mason jars or pom-poms - we don't care, it's all about you (although all those things are still pretty awesome). We don't just book every couple that comes our way, we book the couples that we connect with, so we'd love you tell us all about yourselves & your day. We really think a wedding day should be fun & relaxed. Those are the types of weddings we are attracted to the most. We want to capture happy moments, emotional moments & everything inbetween.

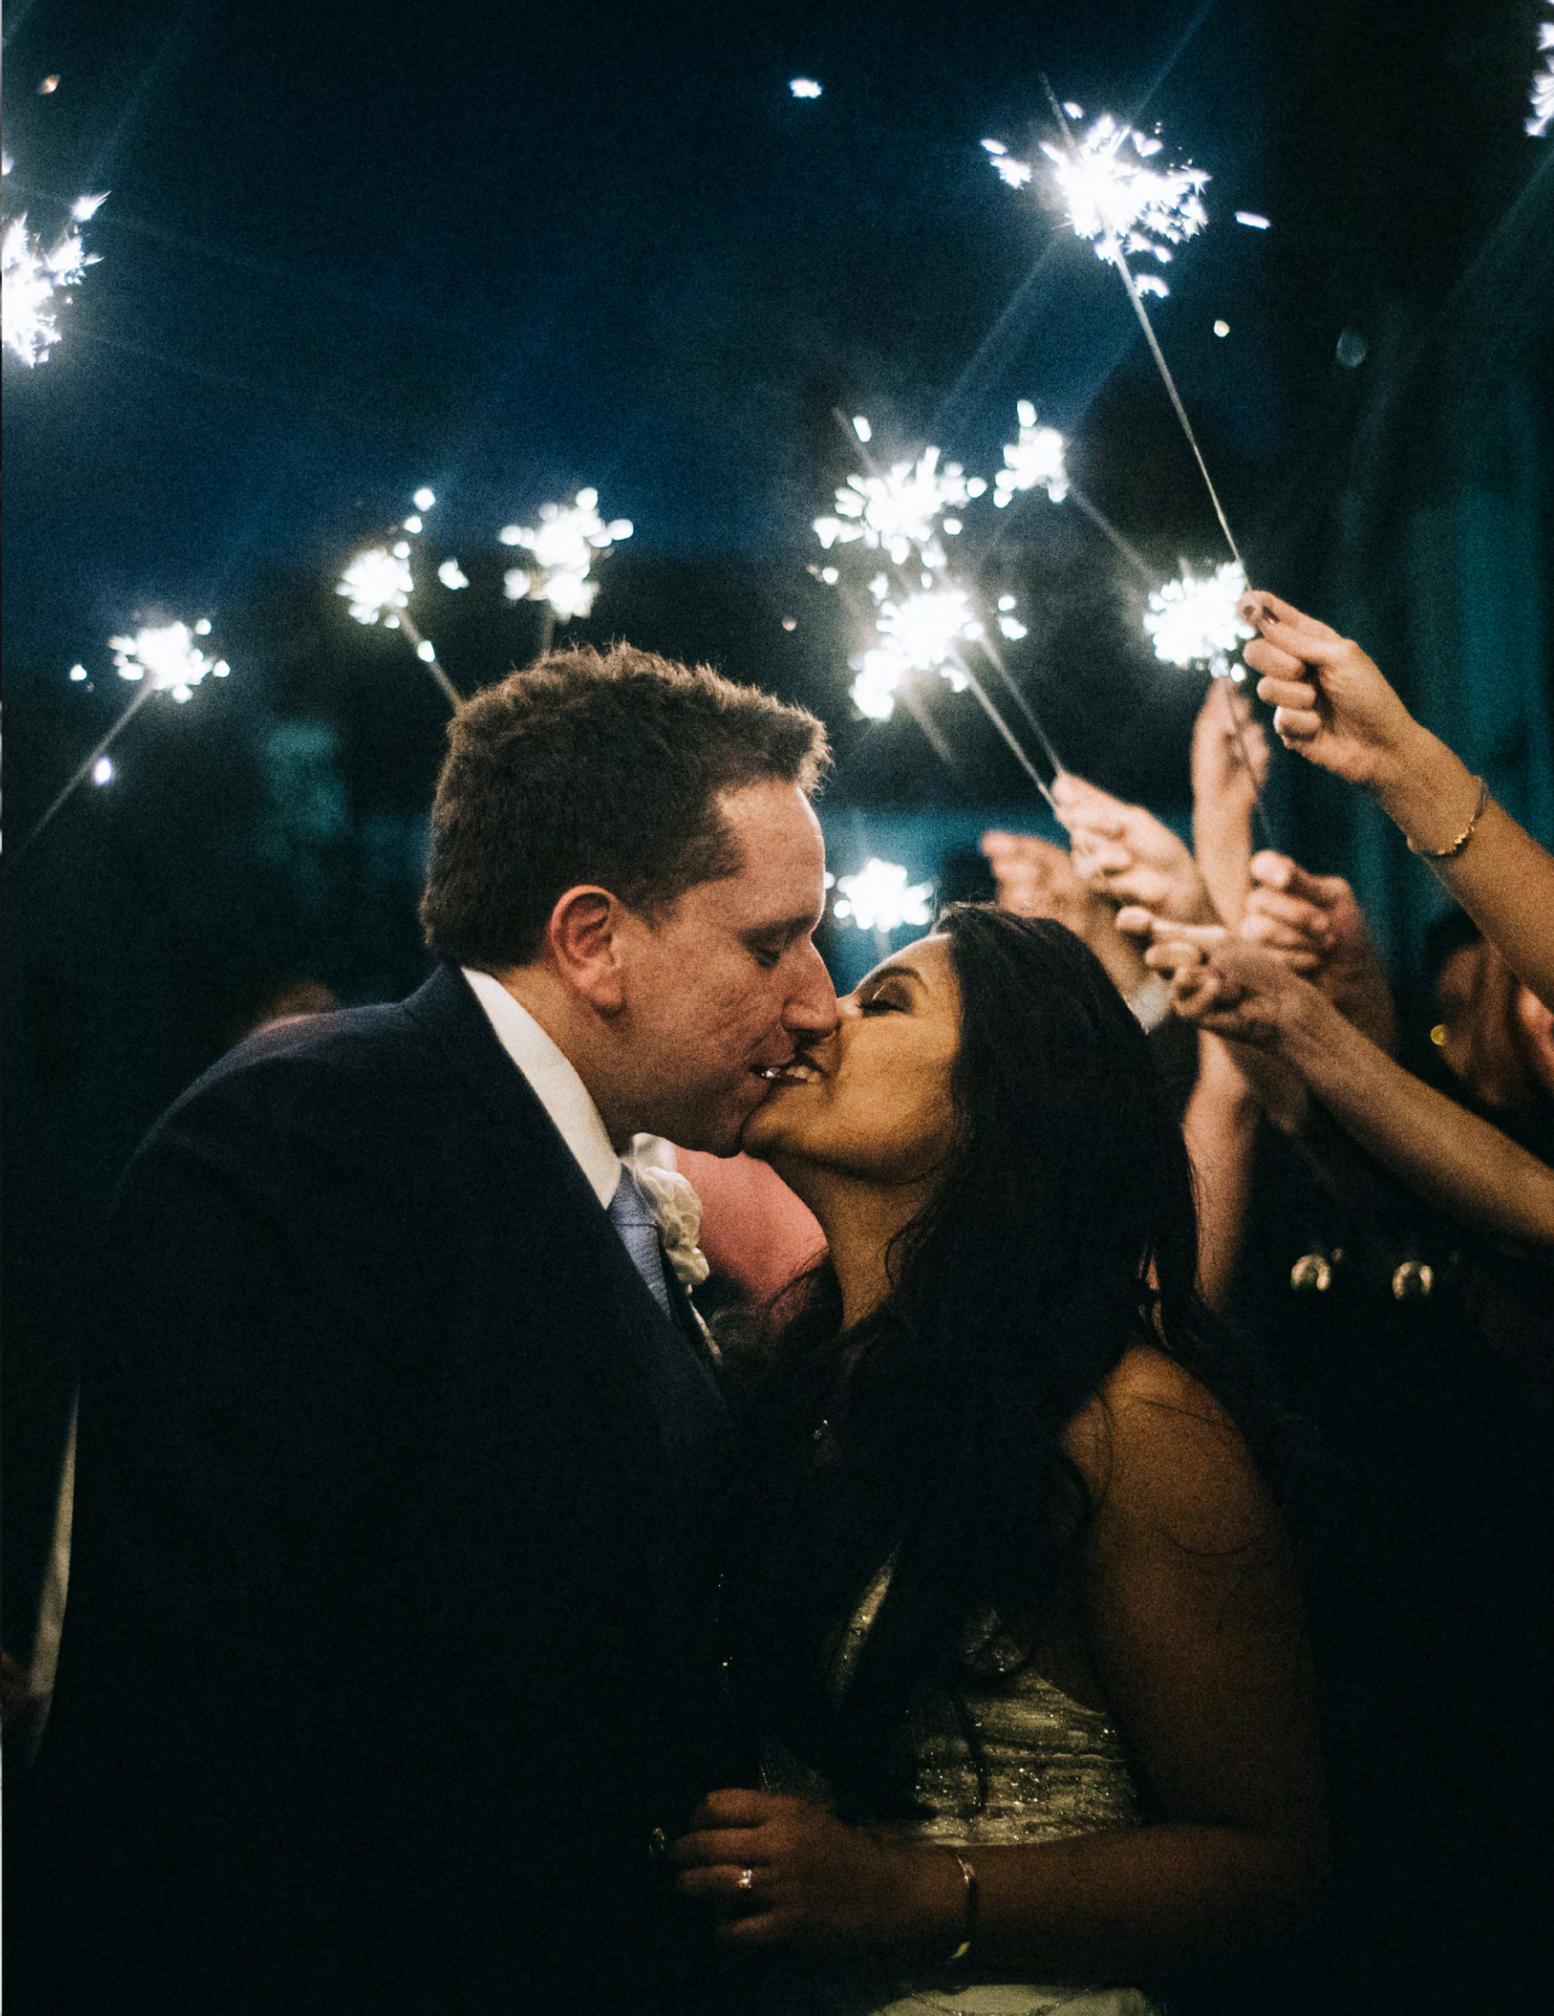

weddings

We are casual observers & we capture the events as they unfold naturally, from bridal prep all the way through to party time. We love candid & capturing the interaction between you & your guests. We will take a rather informal approach to your formals, by which I mean we'll get through your list of family & friends in a nice & relaxed manner. Our most favourite part of the day is when we get to steal you both for those super sweet & chilled bride & groom portraits. These can take from 15-50 minutes depending on your schedule & how much time you want for these. It's a special part of the day where you can get away from the hustle & bustle. We'll hopefully have had an engagement shoot which will make these portraits easy peasy.

You may wonder why we have tried to price up every possible option. Well, we just want you to be armed with everything you need to know before you decide to get in touch with us. This lets us get right in to it. If the prices aren't within your budget then we are always happy to recommend other photographers who are. We don't discount but we are flexible on length of coverage for weekday weddings.

We love our job so much and it means the absolute world to us to be the ones documenting such a special moment in your lives. So read through our packages and HOLA!

Engagement shoot

The perfect little opportunity for us to get to know each other. Plus you'll get a sweet little set of images from it that are all about YOU. These sessions are always super relaxed & informal, in that sense very different from your wedding day. On an engagement shoot the focus is all on getting you comfortable in front of my camera. Once it's done you'll be able to see how we see you both. We love going through our images & seeing that a couple really, really love each other. We'll get on well, we don't doubt that, our goal is really to put you at ease. We want to see that natural connection & body language between you both. We can go wherever you like in Glasgow, Edinburgh, or further afield (up to 2 hours drive if it's somewhere amazing) & you'll have us for an hour. You can wear what you like, it's good to be comfortable but if you're looking for something extra special then you can dress it up a bit too.

From the hour shoot you'll get a minimum of 50 hi res images as a digital download. The shoot is £300. We do highly recommend having one of these shoots before your wedding day as it is such a relaxing experience & will give you so much confidence for the portraits & photographs on the day. Save £100 if you book with a wedding package.

1 - Let's start with our most affordable albums. This option comes in a set of 3, so that's one for you & a copy for each set of parents! Sorted. They are similar in style to the premium non-layflat option as they both feel like books. They also come in the same beautiful slip case that's provided with the premium albums. This book comes in at 7" x 7" and comes with 80 pages. In contrast to the premium albums, we opt for Proline Pearl Gloss pages. It comes with a dust jacket to protect the black canvas cover. You can see an example of this album below. This obviously can't compete with standard of paper & print as the other options but it is so affordable & the albums are really cute & dinky, perfect to carry around in a handbag!

allow 3-6 weeks after you have approved the proof for it to be completed and delivered. All albums ship from the U.S.

We will send you an initial proof. If there's anything you want changed - we allow one round of changes to be made. This is to avoid faffing & indecision. We have lots of experience with albums & printing so we use our professional eye to create these as perfectly as possible. The albums often don't even need any changes.

After your wedding has passed, you have up to 3 months for books to be purchased.

Your wedding photos were meant to be seen and enjoyed, not to waste away on your hard drive. These can be passed down from generation to generation.

2 - Designed to inspire awe from cover-to-cover, the Layflat Photo Album is distinguished for its seamless panoramic spreads, premium quality papers and foil-stamped covers. The Layflat Photo Album offers the choice from 11 fabric colors and 4 varieties of foil-stamping. It comes in at 8.5x8.5" with 50 beautiful pages. Also comes in custom fabric sleeve. So purty.

3 - This premium quality photo book is custom bound in fabric with your choice of a full-sized or partial dust jacket. You can chose between a variety of colours for the cover, which sits pristinely underneath the gorgeous removable dust jacket. You think that's good? This little baby is also filled with 200, yes, TWO-HUNDRED, pages. The pages are 100% recycled with matte finish. The book itself it's 8.5" x 8.5". This book is perfect. Comes with a gorgeous, handmade, fabric sleeve that will be tailored made for your album. This book feels & looks like it belongs on the bookshelf, it is exquisite. You can see an example of this album on the opposite page.

what to expect.

IT'S A LEAGUE GAME, SMOKEY.

What you can see here are some of our favourite little packages that I've sent out to our gorgeous couples. We like to make the whole process as personalised as possible, once we know a few things about you we'll already have an idea for your presentation box, this is a small detail & might not mean much to some folk but it's a part of the process that we really enjoy. It's probably the very last thing we'll send you & we want it to feel special for you both. We want it to be something you might want to keep for a long time. We also love including cute prints & little extras. We are often pretty quick at getting everything ready for posting; We'll start editing the day after your wedding & we'll have all the images ready around three weeks later (sometimes longer during the busy season or if you have a video included). We will know if you are going on a long, luxurious honeymoon, this way we can determine when to post out your package.

We also send out a little welcome package once our lovely couples have completed the booking process. This contains a little welcome guide, full of handy tips for the day. There's also a little note page in the back, perfect for jotting down any ideas or questions that pop in to your wedding brain. There's also a few other treats in there too!

For us, it's not really about being the most suave or the sleekest by using 100% branded items, we have a strong belief that people won't really care for having our logo embossed on their wedding box, simply because we know we wouldn't. If it's not something we would be excited to receive then we won't send it. It does mean we are constantly buying things as we see something and think, oh that would look nice in xx box. A hazard of the job, I guess. We do offer fancy boxes for prints, so if that's something you are interested in then just ask.

kind words.

YOU'RE GODDAMN RIGHT I'M LIVING IN THE FUCKING PAST!

I contacted Tub of Jelly at really short notice when we realised just asking our friends to take photos wasn't really going to cut it, and we'd rather have someone take care of photos specifically. We didn't want the standard wedding photos, we preferred the idea of something with a little more atmosphere, and Betty completely understood that. Her shooting on the day was totally unobtrusive, she was invisible for the most part. The photos she gave to us were so different to the usual wedding photos. It made us feel great when all our friends were so surprised by Betty's unique perspective, that it made them actually take the time to look.

The only downside to using Tub of Jelly is that - ideally - you only get married once.

- Mrs Simpson

We hired Betty to photograph our wedding in cottiers theatre in august this year..unfortunately the weather wasn't on our side and it was torrential! This, however, did not even matter, not only did Betty take wonderful shots of our ceremony, she managed to find beautiful hidden spots within the venue to get those rustic, romantic shots Jo and I booked her for in the first place. Every person at our wedding commented on how discreet she was and how she went about capturing the joy of the entire day. Our photos have been complimented so much and now that our album has arrived i can say without hesitation that tub of jelly were an amazing find, our album is fabulous and every little special touch along the way when workin with Betty was wonderful. Thank you :-)

- Mrs. McPherson

Out of everyone on the day you are one of them we were most pleased with.....so thank you for making it such a great day and giving us such happy memories to view. They are beautiful and as for the video! You have given me something to watch over and over and bring a smile to my face every time. You captured the whole essence of the wedding. There was so much going on at the time, and you were so unobtrusive that I actually forgot you were there!

- Mother of the bride.

Betty (Tub of Jelly) is a true gem! She made us feel completely at ease (when we were well out of our depth!) and created the most amazing natural photos that really captured the day. I can't count how many wonderful comments we've had on our photos from friends and family. To top it all off she sent us a short film of our day as a surprise which words cannot express how much we love. Thanks Betty! Don't hesitate to snap this wee legend up!

- Ebe Vandermeers.

WOW. JUST WOW. This lady is so talented. So wonderfully professional and so creative- a real artist and wonderful people person. She is magic and will make your day magic.

- Mrs. Ashcroft

FAQ

Do you travel for weddings?

Most certainly! In fact, we leap at the chance to visit places we've never seen. If it's more than a 2 hour drive then we may request accommodation & fuel/flight/train/bus expenses.

We would love to book you. Now what?

Awesome. First things first, we require a £500 booking fee in order to secure your date, this is deducted from your final balance. Then down to the boring document reading & signing. For this all we need is both your full names & your current address & a confirmation of your package choice. The contract is in place to protect everyone, not just us! After that the final balance is due on the first of the month that is prior to the wedding date.

Do you have insurance?

We have full liability and indemnity.

Do you do formal photographs and how do you approach it?

We know that these shots are often the ones on grandparent's & loved one's walls & we'll give you the chance to write down which formal shots you want, then we'll take the list along with us on the day. It takes about 3 minutes to set up a shot, bear this in mind. We really don't recommend any more than 6.

anything else?

We offer additional hours coverage, every extra hour is £150.

Should we meet up before the big day?

Most definitely, we want to create a relationship with you in the lead up to your wedding. We want you to be able to trust us fully on the day and not worry about me capturing those special moments. We may be spending up to 8 hours with each other on the biggest day of your lives, we want you to be comfortable with us. See the engagement shoot section!

Do you offer products?

We love print. We always include a few starter prints when we send out the finished package, these vary in size & quantity so we just send them out as a nice little bonus. We are also happy to advise you on the best places to take your hi res images to for printing. We just want you print all those bloody beautiful images! We also offer lovely albums, one premium & one mid range album set.

How long have you been taking photographs?

Betty - I have been taking photographs for over 7 years now. I left school early in 2006 and studied Art & Design, I studied fine art photography during this and learned all about the art of film photography. I developed all my own photos and immediately caught the photography bug! Since then I have done various courses & sold a few some work at my end of year exhibitions. I completed my dissertation on photographic marketing in the fashion industry. I believe all of this is what makes my photography stand out, the constant yearning to capture 'that' moment. During my 2 years as a professional graphic designer I spent a lot of time working with photographs, then when I realised my big love was being behind the lens, I quit. David came on board in early 2015 and has been itching to get going, he has been learning steadily since the beginning of Tub of Jelly & is now ready to join me at the helm.

What actress would you pick to play you in a Betty Rodden biopic?

Obviously it's dependant on the age range but for an older version of myself, that I'm yet to experience, it would 100% be Goldie Hawn. She's the bomb. If Kate Hudson wanted to do the younger scenes, I might have to reconsider the whole bloody thing.

What actor would you pick to play you in a David Rodden biopic?

Matt Damon.
