Created By: The Owl Teacher

Teacher's Page

This is an interactive way to complete 10 math problems related to the following concepts:

- *Multi-digit addition
- *Multi-digit subtraction
- *Multiplication word problems
- *Division word problems
- *Multi-digit multiplication
- *Multi-digit division
- *Adding decimals
- *Subtracting decimals

In addition, there is an editable version provided so you can create your own using any concept of your preference and a blank one for if you desire your students to create their own.

This activity is an engaging activity for Halloween and can be used as a warm-up activity, a center, homework, small groups, an independent activity, and so much more.

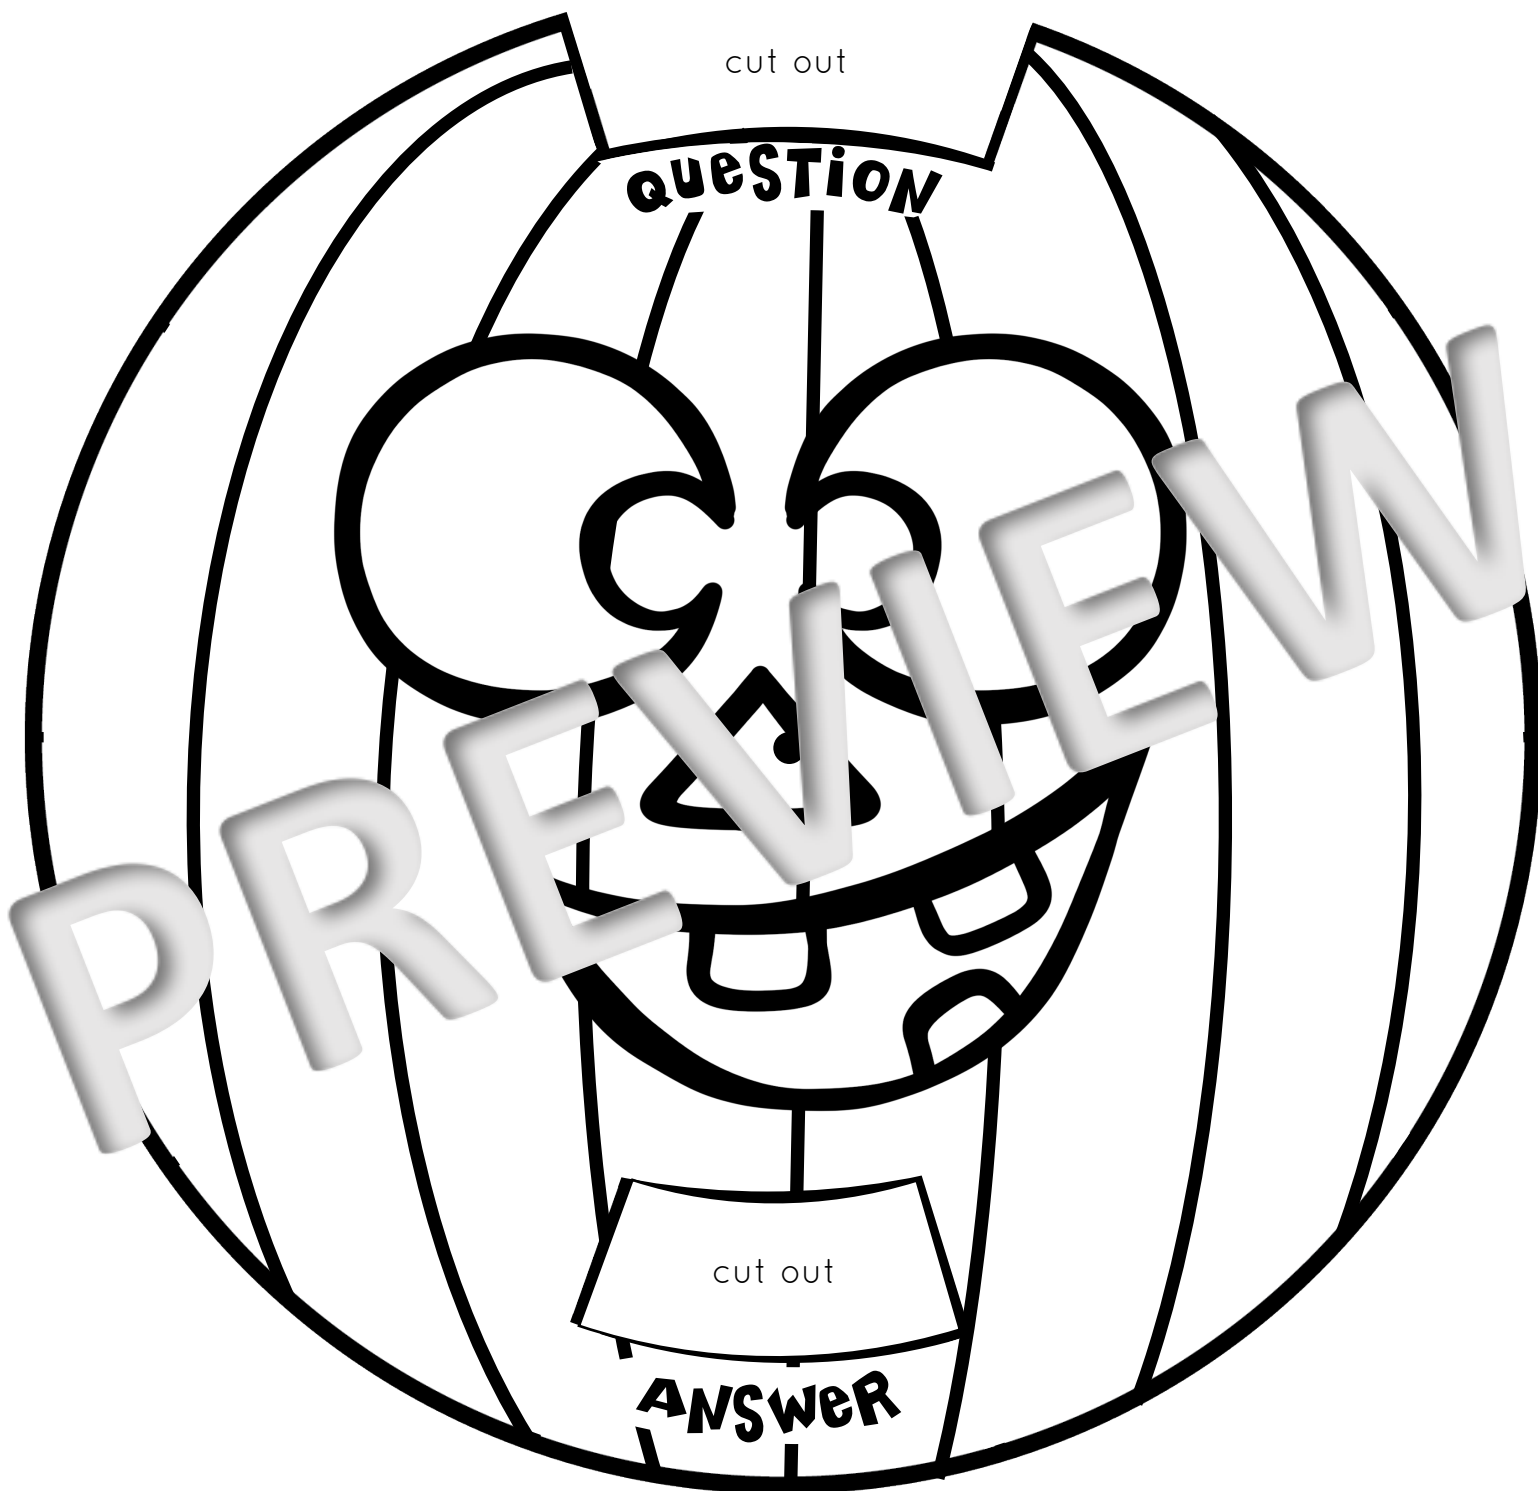

Have students cut around the edges of the two templates and attach them using a brad. Then as they turn the wheel using the stem, they write the answer in the corresponding box. An answer key has been provided.

Thank you for your purchase and I hope you and your students enjoy this activity!

Directions:

Cut out the pumpkin below and the pieces that say “cut out.” Then, color the pumpkin. This is the top portion of your wheel.

Directions:

Cut along the outside of the wheel below, including the stem. Leave the stem attached. Then, using a brad, place the pumpkin part on top. Line up the boxes to complete the problems. Write the answer in the answer box. Carefully turn the wheel to see the next box using the stem.

Directions:

Cut along the outside of the wheel below, including the stem. Leave the stem attached. Then, using a brad, place the pumpkin part on top. Line up the boxes to complete the problems. Write the answer in the answer box. Carefully turn the wheel to see the next box using the stem.
