

Math Task Cards

CCSS 3.NBT.1

Superhero Rounding

Teacher's Page

These 32 task cards are a great way to review with students the math common core standard 3.NBT.A.1 for rounding to the nearest ten and the nearest hundred. These cards provide opportunities for students to round both small and large numbers. Additionally the answer sheet provides for students to do both, rounding to the nearest ten and nearest hundred.

These cards can be used in several different ways such as in small groups, in partners, individually, as homework, in a game of "scoot," or as a math center. Students can respond on the provided sheet or on notebook paper. Students can then check their answers on the provided answer key.

These task cards provide more detail when printed in color, however they can be printed in grayscale to save on ink. It is recommended that they are printed, cut, and laminated for repeated use.

Standards Addressed

3.NBT.A.1

Use place value understanding to round whole numbers to the nearest 10 or 100.
