Editable Posters – there are 9 posters in landscape and 9 in portrait. These are blank posters, there are no images on them. They are PowerPoint documents, you must have PowerPoint installed on your computer to open them. The same chalkboard font is embedded in the document. All you have to do is open the document, click in the text box where it says "edit text" and type in what you want. You can change the font size or color. You can also delete the text box completely if you want. You can see a few of these posters below.

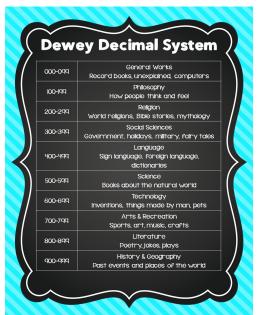

This is a sample of the Dewey Posters. There are 14 posters total. One overview, one poster for each of the 10 categories, 1 398 folk tales poster and 2 biography posters (92 and 921).
