# School Library Memory Books Preview

- 3 different levels: K/1, 2/3 and 4/5. There are no grade levels listed on the memory books. You can use whichever one you want with any grade.
- Each memory book comes in a print format and a Google Slides format.
- The print memory books are in b/w and the Google Slides are in color.
- I also include a folder of images for each memory book. This will allow you to easily upload the images to SeeSaw or to assign just one or two slides to your students.
- I provide directions on how to do this.
- K/1 print books pages are 8.5/11. You can change your print settings and print them smaller.
- All of the Google Slides are sized 11 x 8.5
