

CONCEPTS COVERED

- FOCUS ON 35 DIFFERENT SCIENCE AND STEM CAREERS (SEE 4TH PAGE)
- CAREER EXPLORATION, LEARNING ABOUT THE ROLES, RESPONSIBILITIES, AND REQUIREMENTS OF VARIOUS SCIENCE AND STEM CAREERS.
- READING COMPREHENSION SKILLS AND REFLECTION QUESTIONS
- ANALYTICAL AND DECISION-MAKING SKILLS
- WRITING AND COMMUNICATION SKILLS
- PRESENTATION SKILLS

**GET STUDENTS EXCITED
ABOUT LEARNING**

WHY USE THIS?

Lots of Benefits

- IT PROVIDES A DIVERSE RANGE OF SCIENCE AND STEM CAREERS TO EXPLORE, WHILE PROMOTING LITERACY SKILLS AND ENCOURAGING INTEREST AND CURIOSITY INTO SCIENCE CAREER PATHS.
- AIDES IN DECISION-MAKING, CRITICAL THINKING, AND IMPORTANT LITERACY SKILLS WHILE FOSTERING ENGAGEMENT AND CREATIVITY TO MAKE THE LEARNING PROCESS ENJOYABLE AND MEMORABLE.
- IT SHOWCASES THE RELATIONSHIP BETWEEN SCIENCE AND REAL-LIFE SCIENCE CAREERS, ALLOWING FOR PRACTICAL APPLICATION OF SCIENTIFIC KNOWLEDGE.

**GET HIGH-QUALITY,
ENGAGING RESOURCES**

WHAT'S INCLUDED?

- 35 SCIENCE AND STEM CAREER READING PASSAGES
- CREATIVE AND INTERACTIVE ACTIVITIES, SUCH AS THE TRADING CARD ACTIVITY
- COMPARISON GRID GRAPHIC ORGANIZER
- SCIENCE CAREER QUESTION SHEETS
- PRINTABLE AND DIGITAL VERSIONS
- ANSWER KEYS

**TAKE YOUR WEEKENDS BACK
TO DO WHAT YOU LOVE**

SCIENCE CAREERS

- AERONAUTICAL ENGINEER
- ARCHAEOLOGIST
- ASTRONAUT
- ASTRONOMER
- AUDIOLOGIST
- BOTANIST
- CARDIOLOGIST
- CHEMIST
- CLIMATOLOGIST
- DENTIST
- DIETITIAN
- ECOLOGIST
- ELECTRICAL ENGINEER
- ENTOMOLOGIST
- EYE SURGEON
- HABITAT RESTORATION SPECIALIST

- HYDROLOGIST
- IRRIGATION SPECIALIST
- METEOROLOGIST
- MICROBIOLOGIST
- MINERALOGIST
- NUCLEAR MEDICINE TECHNOLOGIST
- OCEANOGRAPHER
- OPTOMETRIST
- PALEONTOLOGIST
- ROBOTIC ENGINEER
- ROLLER COASTER ENGINEER
- SEISMOLOGIST
- SOIL SCIENTIST
- VETERINARIAN
- WILDLIFE TECHNICIAN
- WIND TURBINE ENGINEER
- X-RAY TECHNICIAN
- ZOOKEEPER

**WITHOUT HAVING TO
SACRIFICE YOUR LESSON PLANS**

HOW IT WORKS

GUIDE YOUR STUDENTS ON A JOURNEY OF CAREER EXPLORATION AS THEY EXPLORE A DIVERSE SELECTION OF SCIENCE CAREERS, COMPLETE CRITICAL THINKING, WRITING, AND COMMUNICATION ACTIVITIES, AND THEN COMPLETE MEANINGFUL REFLECTIONS. LASTLY, HAVE STUDENTS COMPLETE THE CREATIVE TRADING CARD ACTIVITY TO INSPIRE AND ENGAGE YOUR STUDENTS.

Job Description: A chemist
tries to create new chemicals
such as medicine, makeup, etc

Education: A chemist needs
math & science such as
lots of chemistry

Special Tools: A chemist uses
microscopes, test tubes, goggles
gloves, etc

Yearly Pay (Salary): \$ 74,000 a yr

Job Description: A scientist
who studies bugs

Education: science-biology
&/or entomology

Special Tools: nets, hand lens
forceps, container

Yearly Pay (Salary): B/w \$

SAVE TIME PLANNING
WITH DETAILED ACTIVITIES

ADDITIONAL INFO

BY OFFERING A DIVERSE SELECTION OF SCIENCE CAREERS AND ENGAGING ACTIVITIES, THIS SCIENCE AND STEM CAREERS RESOURCE EMPOWERS TEACHERS TO INSPIRE AND PREPARE STUDENTS FOR THEIR FUTURE. THE INTEGRATION OF READING, SCIENCE, AND CREATIVITY PROVIDES A HOLISTIC LEARNING EXPERIENCE, FOSTERS A DEEPER APPRECIATION FOR STEM FIELDS AND THEIR REAL-WORLD IMPACT. ADD IT TO YOUR CART TODAY AND BEGIN PROMOTING A LIFELONG INTEREST IN SCIENCE AND STEM-RELATED CAREERS!

science careers: entomologist

Do insects interest you? Do you like chasing butterflies and catching beetles? Let me tell you about a special job that lets you study and understand insects.

Entomology is the study of insects. An expert in this science is an entomologist, or an insect scientist. They study all kinds of insects: flying, crawling, rolling, swimming; everuthing! They try to understand how insects live and how they react to things around them. They also study how humans and other animals affect insects and how to help insects live better and longer.

Insects are all over the world, so these scientists can work in many different places. They can work on a farm to help with pest control. They can work for a hospital to help with insect bites. They can work with police officers to solve crimes. They can work in a museum to help with insect preservation. They can even work in an exhibit. Bee keeping is a popular hobby, and entomologists, too!

An entomologist would study many different kinds of insects. They use many different kinds of traps. For insects that fly, they use traps with light or bait. For insects that crawl, they use traps with glue. For insects that swim, they use traps with food. Once they catch an insect, they use an aspirator to put it in a container. They observe the insect using forceps and a microscope.

So if you have an interest in entomology or biology, you should take some classes. Once you finish your classes, you can take an exam to earn your license. After that, you can work as an entomologist. You can earn \$34,000 to \$76,000 a year.

If you're fond of insects, then being an entomologist might be a good career choice for you.

BASED RESOURCES**

LOVED BY TEACHERS

"These were a very fun way for the class to learn about different STEM careers and what might interest them in the future. The students had fun filling out the trading cards with partners."
-Samantha M

"I used this on a sub day. It was a perfect lesson that taught the kids about careers, gave me a great bulletin board of trading cards - and it was easy for the sub! Thank you!"
-The Pen and Paperclip

"This is an awesome product. I love the trading card activity. The passages are easy to read and the information is great. So many science careers to learn about. Two thumbs up!! Thank you for sharing your work!"
-AR Tech Star - Eva G
