A Garden of Rounding

Directions

- Stack the cards facedown.
- When it's your turn, draw a card. Record the number and then round it according to the code:

Tomatoes – round to the nearest thousand
 Lettuce – round to the nearest ten-thousand
 Yellow Pepper – round to the nearest hundred-thousand
 Red onion – round to the nearest million

- Have your partner check the answer key. If you're correct, keep the card. If you're not correct, return the card to the bottom of the pile.
- Keep playing until the numbers on all the cards have been rounded correctly. The player with more cards win.
