LOVED BY TEACHERS

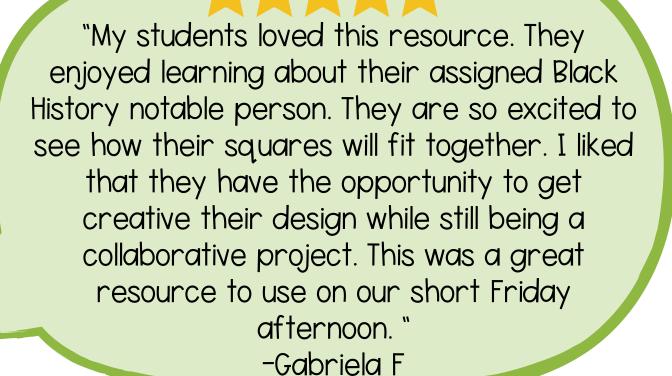

"This is the most successful Black History Month resource I have used in a long time. I like that it was customizable and engaging for them to use. They got to do some of their own research, which is a great skill for their age level. But I also like that it doesn't take a TON of time for kids to complete, which kept us from having to cancel a full day of our regular curriculum."

—Taylor D

"My students and I enjoyed using this easy to use resource. I would recommend to any teacher!"
