Part 1: Jelly Without the Peanut Butter
Mistakes: 16

Sum of us love peanut butter and jelly. But this kind of jelly would not be good on a sandwich! I'm talking about jellyfish. Jellyfishes come in a variety of kinds and sizes. Each different type has unique traits. It is important to note that jellyfish can sting you. Their bodies have a large dome with long tentacles which trail behind them. Those tentacles can sting whatever they touch. The reason that they do that is to stun what they are trying to eat, but for humans they are not trying to eat us. It is an accident when they sting us. Thankfully, a sting to a human isn't deadly. However, it can leave a mark on our skin and is very painful!

Part 2: The Story of Many Firsts
Mistakes: 13

Being the first person to do something can be historic. Kamala Harris was the first to do many things in her life. She was the first woman elected the first woman attorney general in California. She was the first African-American woman in California. In 2017, Harris made another great first when Joe Biden became vice president in 2020. This made her the first female vice president. She has had a long career.

Part 1: It's Electric!
Mistakes: 15

Computers, televisions, microwaves, and your cellphone: These are all things that would disappear without electricity! You may be asking yourself "What is electricity?" It is something that is sparked by energy. Some energy that sparks electricity is coal, water, or wind. Electricity can also be made by static electricity. That is when you are making energy yourself, like when you are wearing socks on carpet then feel a spark when you touch metal. Scientists have discovered ways to harness that electricity and bring them into our homes to power all the electronics that we use. I am glad they did because I love my iPad!

Part 1: The Milky Way that You Cannot Eat
Mistakes: 15

No you cannot eat this version of the milky way. So what is it that we are talking about? This Milky Way is a galaxy that is a gigantic collection of things in space. it includes stars dust and gas clouds. Its not the only galaxy. Their are billions in the universe! If you where to look at the milky way from above it wood look like a spiral pinwheel and in the middle is the nucleus Then the sun travels around that nucleus and our planets travel around the sun.

Part 2: The Milky Way that You Cannot Eat
Mistakes: 13

There are some spooky things that exist in the Milky Way. One of the most frightening things is a black whole. That is a area that has so much gravity that nothing can get out of it. May you imagine how scarey that would be. The senter of the milky way is called the nucleus and is made of stars and won big black hole. Our solar system is not close to the middle of the milky Way; them is close to the outside. In fact the solar system is almost 30000 light years away from the nucleus.

37: The First Woman to Win a Nobel Prize
Total mistakes to find: 10

Nobel Prizes are one of the highest awards that can be given. They are rewarded for amazing work in science, literature, medicine, and peace. In 1903, Marie Curie became the first woman to ever receive the Nobel Prize. In fact, she earned the Nobel Prize twice! Only three people ever in history have won the prize more than one time. Marie was a brilliant scientist who loved math. (no comma needed here) and physics. She also discovered radium, a precious chemical element that was later used for many things.

38: The First Woman to Win a Nobel Prize Part 2
Total mistakes to find: 10

Marie's life was not always full of fame and glory. She was born on November 7, 1867 as the youngest of five children. Marie was very gifted with math, but during that time girls were not allowed to get an education like boys. Marie's father secretly taught her at home until it was allowed for her to go to school. She attended the Sorbonne University in Paris, France where she studied math and physics. Marie had many struggles as she worked hard to get her education. She never gave up, which led to success for her future career as a scientist.
