

- 2 activities about insects and bees
- Each activity comes with pre-loaded SeeSaw links and Google slides files.
- Audio is included for each activity.
- Each activity has moveable pieces.

## All About Insects

## Busy, Buzzing Bees

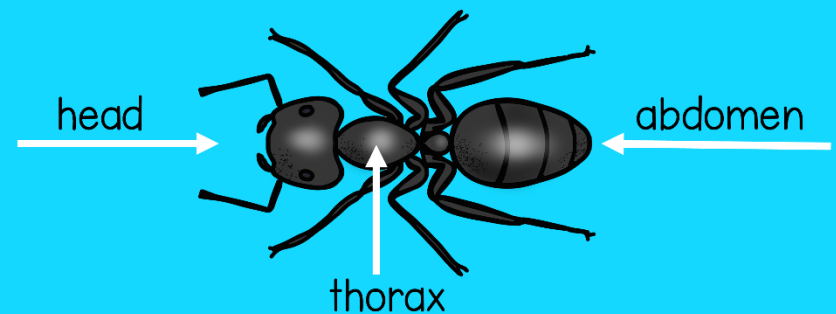

# All About Insects (sample pages)

Do you like bugs?  
There are more than  
one million insects in  
the world.

What is an insect?

Insects have 3 body parts.

Some bugs fly and have  
wings. Lightning bugs are  
also called fireflies.  
Dragonflies shake their  
wings to warm up.

# Busy, Buzzing Bees (sample pages)

## Food

Bees are always busy.  
They buzz around  
flowers.  
Bees get their food from  
flowers.  
The food is called nectar.

## Life cycle

1. Queen lays the eggs.

2. Larva hatches from the eggs.

3. Larva grows into a pupa.

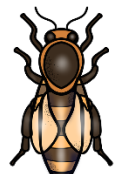

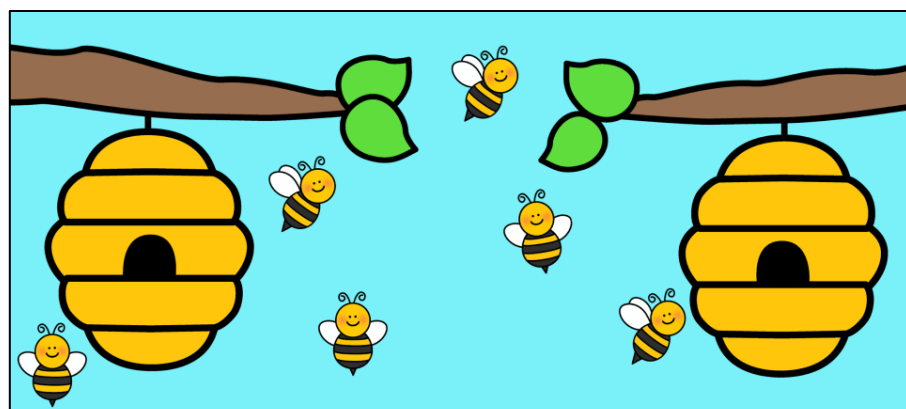

4. Pupa grows into an adult bee.

## Types of bees

Bees live in beehives.  
There are 3 types of bees.

Drones	Workers	Queen
Help queen lay eggs	Gathers and makes food	Lays the eggs. Only one queen in a hive.
		

Bees live in beehives.
