

Examples of some of the slides

Non-fiction books are true books.
They have information and facts.
Some non-fiction topics are:

HISTORY

FAMOUS PEOPLE

WEATHER

TRANSPORTATION

OUTER SPACE

The Dewey
Decimal
System is a
tool used to
sort
nonfiction
books in the
library.

The Dewey Decimal System
has 10 categories of books.

Each category has books on
the same subject or topic.

This way you can easily find
the books you want.

Dewey Decimal System

000-099	General Works
100-199	Philosophy
200-299	Religion
300-399	Social Sciences
400-499	Languages
500-599	Science
600-699	Technology
700-799	Arts and Recreation
800-899	Literature
900-999	History and Geography

300-399

Social Sciences

Books in this category are about how people
live and work together.

EXAMPLES: GOVERNMENT, MONEY, LAW, MILITARY,
HOLIDAYS

000-099

General Works

BOOKS IN THIS CATEGORY INCLUDE:

COMPUTERS & THE INTERNET, WORLD RECORDS AND
THE UNEXPLAINED (UFO'S, BIGFOOT)

398

Folktales

Fairy tales, folktales and legends are also in
this category. Why? Most of these stories
were written to teach us a lesson or were
based on real events.

600-699

Technology

Books in this category are about things
humankind has invented or created.

EXAMPLES: HEALTH, COOKING, PETS, INVENTIONS,
AIRPLANES AND MACHINES

Before he created this system,
books were very hard to find
since there wasn't any order to
the shelves. It was like finding a
needle in a hay
stack (or a book!)

Dewey Review:

- This is not an editable file.
- There are 18 questions
- Each question has the same format
- There are 3 slides for each question
- Question slide, incorrect answer slide, correct answer slide
- On the question slide the student will look at a book cover and then choose what Dewey category that book goes in.
- If they choose the correct answer they go to a slide that says they are correct and can click to the next question.
- If they are incorrect, they go to a slide that tells them they chose the wrong answer. They click a link that shows the correct answer and then move on to the next question.

I also have a Dewey Decimal Review PowerPoint in my store. This file is very similar but it is not identical. I also used different book covers for every question. This way if you also own the PowerPoint file, you can use both of these review games with your students for extra practice.
