Dewey Decimal Bingo Game Preview

- The purpose of this bingo game is to review the Dewey Decimal System. On each card is a common Dewey call number and category. I used whole number Dewey. The Dewey categories may not be exact to your library, but they should be close.
- The teacher/librarian will call out a book title. The student will cover up the Dewey category that matches the book title.
- There are 30 Dewey categories and 2 book titles for each category. You can use the ones I provide, or you can use your own titles.

What is included:

- 3 sets of bingo cards. 32 cards in each set.
- Set #1: each square has the Dewey category and a matching picture (in color)
- Set #2: each square has the Dewey category and a matching picture (in black and white)
- Set #3: each square has only the Dewey category (no pictures)
- Google slide link with 32 bingo cards. The cards are identical to set #1.

DEWEY DECIMAL BINGO

- Listen to the book title. What Dewey category does the book belong in?
- If you have that category on your card, drag a chip and cover it up.
- When you have 5 in a row call out bingo!

©Staying Cool in the Library

There are 32 slides in the file. Each slide has a bingo card and transparent shapes. The transparent shapes layered on top of each other so students will have plenty to use. Assign the cards through Google classroom and play like regular bingo.

LIST OF THE DEWEY CATEGORIES USED IN THE BINGO GAME. THERE ARE 2 BOOK TITLES FOR EACH CATEGORY. YOU CAN ALSO USE YOUR OWN BOOK TITLES.
