HOW IT WORKS

ENGAGING READING COMPREHENSION PRACTICE!

1

Students work individually (or in pairs) and visit 16 question cards.

2

Students will answer the questions found directly in the passage on their recording sheet.

3

Students will use that specific “decoder” to reveal a 4-digit code for each level.

TROPICAL RAIN

There are two different types of rainforests; temperate rainforests are most commonly found across the globe. The hot, humid, dense forests, usually near the equator. One of tropical rainforests maintain a warm environment all year round. Also, as their name suggests, tropical rainforests receive much as 100 inches throughout the year.

Tropical rainforests can be found in Southeast Asia, South America, Central America, Australia, and the Pacific Islands. In fact, ra
