Pocahontas was a Native American known for saving Captain John Smith, though this is a story and not necessarily true. She established peace between the colonists of Jamestown, Virginia, and Native Americans.

Pocahontas was around 15 when her father was the chief of the Powhatan people. He ruled over 10,000 people. Pocahontas was a nickname meaning "playful one."

Pocahontas was around age ten when the colonists arrived in Virginia. These colonists had guns and armor. Often there was tension between the Native Americans and colonists. When they weren't fighting, they traded goods.

Pocahontas visited the new Jamestown colony frequently. She would bring food to the colonists.

Eventually, however, in 1607, the Powhatan captured Captain John Smith. Pocahontas' father was going to have him killed, but Pocahontas convinced him not to.
