

AGE OF ENLIGHTENMENT

ESCAPE ROOM

ENLIGHTENMENT
Age of Reason was a period of time from about 1685-1815. This in Europe because people began thinking differently. European and wondered if governments might be better if they char and inspired revolution. It challenged old ways of thinking and science, and communication were made in politics, philosophy, science, and communication that you were told as truth, the people in the Enlightenment er themselves and investigate things they had always been told. The world could only work in the one way it always had with on a king or queen, and different social classes. Before the was little anyone could do about their social class. If they would always be a peasant farmer. Had they been born in would remain there. There was little chance of improving a

HOW IT WORKS

ENGAGING READING COMPREHENSION PRACTICE!

- 1** Students work individually (or in pairs) and visit 16 question cards.
- 2** Students will answer the questions found directly in the passage on their recording sheet.
- 3** Students will use that specific “decoder” to reveal a 4-digit code for each level.

ENLIGHTENMENT

The Enlightenment or Age of Reason was a period of time period was important in Europe because people began questioning authority and wondered if government the way countries were run. It challenged old ways of thinking. Great advancements were made in politics, philosophy. Instead of taking what you were told as truth, the people began to think for themselves and investigate things they began to wonder if the world could only work in the present.
