# 6 PASSAGES

Of the seven continents that cover the land area of Earth, the fourth largest continent in size is South America. South America, primarily in the southern hemisphere, covers nearly 7 million square miles of land. It is bordered by the Pacific Ocean to the west, the Atlantic Ocean to the east, and the Caribbean Sea to the north.

The continent is home to a diverse range of cultures, languages, and landscapes. From the snow-capped peaks of the Andes mountains to the lush rainforests of the Amazon basin, South America boasts some of the most spectacular natural wonders.

There are roughly 438.5 million people who call South America home making it the fifth largest continent in population. South America is made up of 12 different countries as well as dependencies which are countries that do not have their own independent government.
