WOMEN'S SUFFRAGE

Women's suffrage is the right of women to vote and to hold an elected office position. The word "suffrage" means the right to vote. In the mid 1800's, women started fighting for the right to vote. This movement was called Women's Suffrage. Prior to 1920, American women did not have the right to vote.

Women involved in the political movement were called Suffragettes, Sister Suffragettes or Suffragists. Fighting for equal rights for over thirty years, Susan B. Anthony played a major role in gaining the right to vote.

Gaining equal rights for women was a slow process. Leaders formed groups, held conventions and protested. The first women's rights convention was held in Seneca Falls, New York in 1848. Lucretia Mott and Elizabeth Cady Stanton led the convention. The convention was a safe place to discuss the rights of women in education, employment, and politics.

The outcome of the meeting was a document which stated that women should have equal rights to men, called Declaration of Sentiments. The opening passage was modeled after the Declaration of Independence. The document called for gender equality and a women's right to vote. A total of 68 women and 52 men signed the document.

In 1869, Susan B. Anthony and Elizabeth Cady Stanton formed the National Women's Suffrage Association. Their goal was to get an amendment passed that would allow women to vote. They wanted the right for women and people of any race to be included in the 15th Amendment. The 15th Amendment was passed in 1870 which allowed all men to vote, but not women.

Susan B. Anthony and other women attempted to vote but some were arrested and charged a fine. It wasn't until 1910 that states in the west began to include women in the right to vote. Many states still refused and for that reason more extreme women's groups like the National Women's Party were created.

Susan B. Anthony was inspired to fight for women's rights but was denied a chance to speak at a convention because she was a woman. In the work place, she noticed that she was making about one fourth of a man's earnings for the same job. Anthony realized that no one would take women seriously unless they had the right to vote.

The National Women's Party wanted to draw attention to women's

What state was the first women's rights convention held in? *

- Florida
- California
- New York
- Idaho

What country gave women the right to vote in 2005? *

- Kuwait
- United States
- Italy
- None of the above

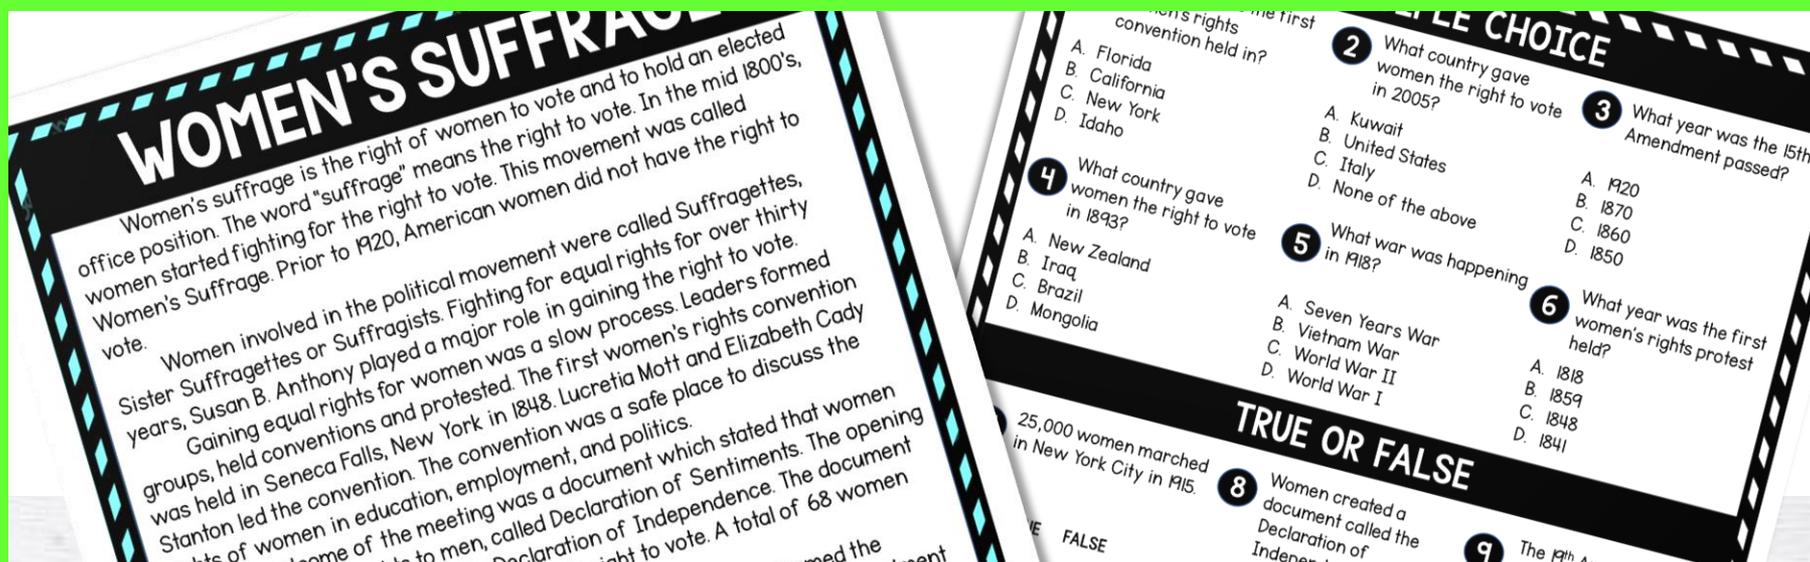

What year was the 15th Amendment passed? *

- 1920
- 1870
- 1860
- 1840
