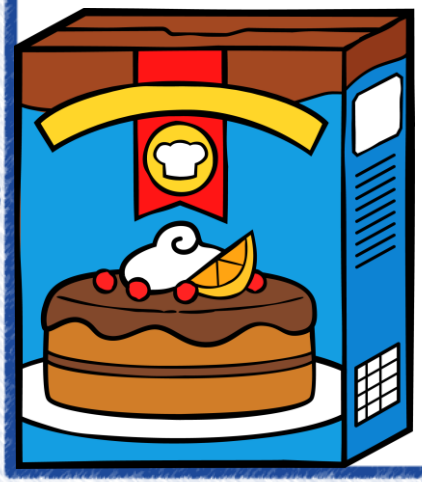
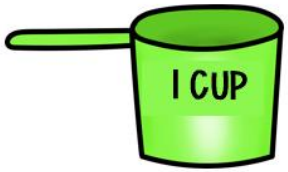
CAKE MIX

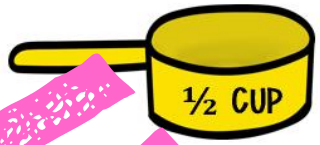
Alexander Graham Bell was a scientist, engineer, and inventor from Scotland, born in 1847. Bell is most known for inventing the first telephone. Others, including Antonio Meucci and Elisha Gray, were working with sound at the same time. In fact, Gray and Bell both applied for patents on February 14, 1876. Gray's invention was a liquid transmitter. However, Bell was awarded the first patent for the telephone. Thus, he is considered the inventor of the telephone. Days after his patent, Bell's telephone worked using similar components from Gray's design.



Where was Alexander Graham Bell born?



Ireland



Scotland

United States

France

BAKING SODA

Bell was primarily homeschooled. Because his mother was deaf, he and his father taught deaf people how to speak. Eventually, he worked for various deaf schools and even invented the human voice. Additionally, Bell was proficient at playing the piano when he was young. He didn't have Graham as a middle name until he was ten years old. He requested the middle name to be added like his brothers. His wife, who was also deaf, called him Alec, per his request.

At what age was the middle name 'Graham' added?

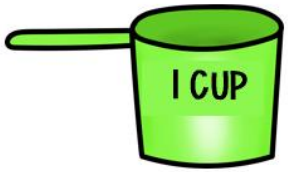
ICING

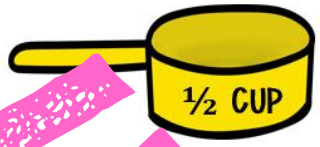
Thomas Watson

Thomas Watson was an electrical designer. He and Bell studied acoustic telegraphy. At one point, Watson tried to reactivate a telephone transmitter. This action led Bell to believe that he could transmit voices over a wire. On March 10, 1876, Bell created the first working telephone. His first words via telephone were, "Mr. Watson, come here. I want to see you." Thomas Watson heard those words.

Who did Bell speak his first words to through the telephone?



Watson



Edison

Einstein

Howard

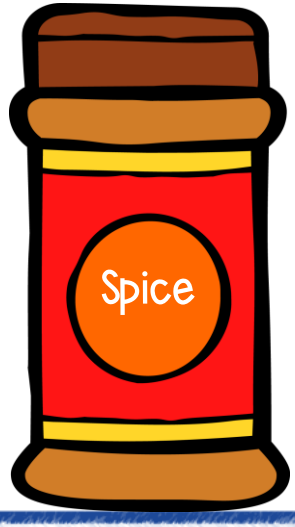
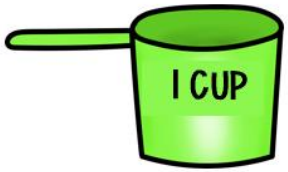
Other Important Acknowledgements

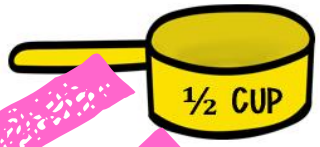
Bell, along with some investors created the Bell Telephone Company in 1877. Today that company is known as AT&T. By 1886, there were over 150,000 telephones in the United States. Bell also began experimenting in aviation in the 1890s. He wanted to create an airplane that could take off from water. His hydrofoil boat that skipped over water set a world water-speed record that lasted over a decade.



When was the Bell Telephone Company created?



1893



1890

1886

1877
