6 PASSAGES

Ancient Egypt was a civilization that lasted over 3,000 years, located along the Nile River in northeast Africa. A civilization is a group of people who have their own culture and way of life. This civilization was one of the longest and most powerful ones in history. They are well known for their pyramids, which were built as a burial and memorial for pharaohs. Pyramids were large structures built out of rocks and limestone with four triangular sides coming to a point on top.

Ancient Egypt was divided into two regions known as Upper Egypt and Lower Egypt. This was based on the flow of the Nile River. Oddly, Upper Egypt was in the south and Lower Egypt was in the north. Palaces, houses, and temples were built on the eastern bank of the Nile. The necropolis, or "city of the dead," was on the western bank of the Nile.
