HOW IT WORKS

ENGAGING READING COMPREHENSION PRACTICE!

1

Students work individually (or in pairs) and visit 16 question cards.

2

Students will answer the questions found directly in the passage on their recording sheet.

3

Students will use that specific “decoder” to reveal a 4-digit code for each level.

ALEXANDER GRAHAM BELL

Alexander Graham Bell was a scientist, engineer, and inventor of the telephone. He was also a teacher for the deaf. Bell was telegraphically named after his father. He didn't have a middle name until he was telegraphically named after his father. He was homeschooled by his father. At the age of 12, this young boy was telegraphically named after his father. His research on hearing and speech was telegraphically named after his father. Bell's mother was deaf, as well as his wife. Bell and his wife were telegraphically named after their father. He taught his students to teach them how to speak. His father was telegraphically named after his father.
