VALENTINE'S DAY

Valentine's Day is celebrated every year on February 14th. Valentine's Day is an annual celebration of love. There are enough candy hearts made each year to stretch from Arizona to Italy and then back again. The most popular flower on Valentine's Day is the rose.

Originally, the day was created to celebrate Saint Valentinus. Saint Valentinus performed weddings for soldiers who were not allowed to marry. He was imprisoned for his actions. While in jail, Saint Valentinus wrote a letter to a woman. His letter was signed "From your Valentine".

Claudius II was a Roman emperor who banned all marriages and engagements in Rome. He believed that the men of Rome were not willing to join his army because of their love for their wives and children. At that time, Valentine's Day was not associated with flowers or chocolate.

Valentine's Day is also known as the Feast of Saint Valentine. Nine million people buy pets as a gift on Valentine's Day. About three percent of pet owners will give Valentine's Day gifts to their pets. On average, one billion Valentine's Day cards are exchanged in the U.S. each year.

Richard Cadbury released the first Valentine's Day candy box. Cadbury thought that when the chocolates had been eaten, the box could be used to store mementos because it was so pretty. The boxes had a beautiful design on the front. He started marketing his artistic heart-shaped boxes in the 1860s. Every year, at least 36 million heart-shaped boxes of chocolates are sold.

Cupid is the son of Venus. Venus was the god of beauty and love. Stories say that Cupid shot magical gold-tipped arrows at gods and humans. By piercing their heart with the golden arrow, he would cause individuals to fall deeply in love.

In what month is Valentine's Day celebrated? *

- December
- January
- February
- March

Who is Cupid the son of? *

- Claudius II
