

# WHAT ARE BOOK TALK CARDS?

There were many times when I would pair students together for reading and just assumed that their time together would be productive and on task. I also assumed they would know HOW to read and discuss their reading together.

I was wrong! 😞

So these Book Talk Prompt Cards were designed to make partner reading more engaging

Whether you call it:

- Partner Reading
- Buddy Reading
- Read to a Partner
- Book Clubs, etc....

these cards will help your students stay on task while they discuss their reading.

The best part is that you can EDIT these prompt cards to align to your expectations and your students' needs.

Set-Up Suggestions:

Print on cardstock and laminate for durability. Cut out, hole punch, and put on a book ring for organization. Then you're good to go!!

Happy Teaching 😊

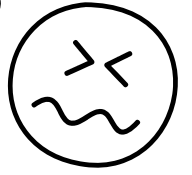

Would you recommend this book to someone else? If **YES**, why? If **NOT**, why not?
