

# WHAT ARE BOOK TALK SENTENCE STEMS?

---

I really enjoy allowing my students to discuss their reading with a partner or in small groups. My students also grow stronger as readers and writers with literature circles, where we talk about our reading.

I assumed that my students could appropriately and respectfully talk to one another about their reading. I was wrong! 😞

Students need guided practice sharing their opinions, answers, and comments during our book talks.

So these 18 Book Talk Sentence Stem Cards were designed to make partner reading / small group book discussions more engaging.

Whether you call it:

- Partner Reading /Buddy Reading
  - Literature Discussions
  - Literature Circles
  - Book Clubs, etc....

these cards will help your students stay on task while they discuss their reading.

The best part is that you can EDIT these prompt cards to type additional responses that align with the reading and book talks taking place in your class.

Set-Up Suggestions:

Print on cardstock and laminate for durability. Cut out, hole punch, and put on a book ring for organization if you'd like.

Then you're good to go!!

Happy Teaching 😊
