

WHAT ARE POETRY SENTENCE STEMS?

I really enjoy allowing my students to talk about poetry with a partner or in small groups. My students grow stronger in their understanding and appreciation of poetry when they get to discuss it with each other.

I assumed that my students could appropriately and respectfully talk to one another about poems and their meaning. I was wrong! 😞

Students need guided practice sharing their opinions, answers, and comments during our poetry talks.

So these 18 Poetry Talk Sentence Stem Cards were designed to make partner reading / small group poetry discussions more engaging.

These cards will help your students stay on task while they discuss their poetry.

The best part is that they are editable. You can type additional responses that align with the poetry reading and discussions taking place in your class.

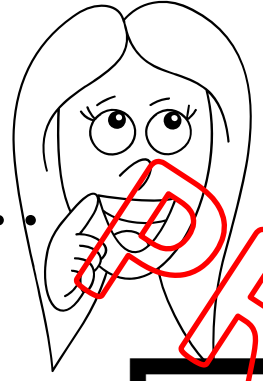

This poem makes
me think of
_____ from my
life because...
