

WHAT ARE POETRY PROMPT CARDS?

I enjoy teaching poetry all year long—not just for National Poetry Month in April. Our poetry centers are more engaging when students have the option to work together with a partner for Poetry Partner Reading.

So these Poetry Talk Prompt Cards were designed to make partner reading with poetry more engaging and on task for students.

They are versatile enough to use for partner reading, small group poetry work, or a whole class poetry discussion.

You can also EDIT these prompt cards to align to your expectations and your students' needs with poetry discussions in your classroom.

The set has 18 questions that can be used with ANY poem.

For my poetry centers, I print them on cardstock and laminate for durability. Once I cut them out, I hole punch the top corner and attach them to a book ring. This makes them super easy to include with my poetry center / poetry activities.

Students then take the ring of questions out and continue their poetry work by asking each other the questions.

If you had to think of some hashtags for this poem, what would they be?
