It was blazing hot outside. Nick was dripping wet, despite the fact that the sun was pounding on his skin. "Why are you still wearing your swimsuit?" Amber asked him.

"I'm just too tired to change clothes right now. Every single muscle in my body feels like a limp noodle after all those laps. All I want is some ice cream and a nap!" Nick responded.

Where is Nick? What season of the year is it? Give clues to support your answer.

Nick is at the swimming pool in the summer time. The clues that support this are:

- It is blazing hot outside and it gets hot during the summer in most places.
- "The sun is pounding on his skin," sunny weather is common during most summer months.
- Nick is wearing a swimsuit and is dripping wet, which shows he's been swimming. When he talks about "all those laps", that shows he may have been at a swimming pool.
- All he wants is ice cream, a common summer snack for many people.
